

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Arcane Mark Witch 0

**School** universal  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Effect** one personal rune or mark, all of which must fit within 1 sq. ft.  
**Duration** permanent  
**Saving Throw** none; **Spell Resistance** no

This spell allows you to inscribe your personal rune or mark, which can consist of no more than six characters. The writing can be visible or invisible. An *arcane mark* spell enables you to etch the rune upon any substance without harm to the material upon which it is placed. If an invisible mark is made, a *detect magic* spell causes it to glow and be visible, though not necessarily understandable.

See *invisibility*, *true seeing*, a *gem of seeing*, or a *robe of eyes* likewise allows the user to see an invisible *arcane mark*. A *read magic* spell reveals the words, if any. The mark cannot be dispelled, but it can be removed by the caster or by an *erase* spell.

If an *arcane mark* is placed on a living being, the effect gradually fades in about a month.

*Arcane mark* must be cast on an object prior to casting *instant summons* on the same object (see that spell description for details).

### Bleed Witch 0

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one living creature  
**Duration** instantaneous  
**Saving Throw** DC 23 Will negates; **Spell Resistance** yes

You cause a living creature that is below 0 hit points but stabilized to resume dying. Upon casting this spell, you target a living creature that has -1 or fewer hit points. That creature begins dying, taking 1 point of damage per round. The creature can be stabilized later normally. This spell causes a creature that is dying to take 1 point of damage.

### Dancing Lights Witch 0

**School** evocation [light]  
**Casting Time** 1 action  
**Components** V, S  
**Range** medium (100 + 10 ft./level)  
**Effect** up to four lights, all within a 10-ft.-radius area  
**Duration** 1 minute (D)  
**Saving Throw** none; **Spell Resistance** no

Depending on the version selected, you create up to four lights that resemble lanterns or torches (and cast that amount of light), or up to four glowing spheres of light (which look like will-o'-wisp), or one faintly glowing, vaguely humanoid shape. The dancing lights must stay within a 10-foot-radius area in relation to each other but otherwise move as you desire (no concentration required): forward or back, up or down, straight or turning corners, or the like. The lights can move up to 100 feet per round. A light winks out if the distance between you and it exceeds the spell's range. You can only have one dancing lights spell active at any one time. If you cast this spell while another casting is still in effect, the previous casting is dispelled. If you make this spell permanent, it does not count against this limit.

Dancing lights can be made permanent with a permanency spell.

### Daze Witch 0

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, M (a pinch of wool or similar substance)  
**Range** close (25 + 5 ft./2 levels)  
**Target** one humanoid creature of 4 HD or less  
**Duration** 1 round  
**Saving Throw** DC 23 Will negates; **Spell Resistance** yes

This spell clouds the mind of a humanoid creature with 4 or fewer Hit Dice so that it takes no actions. Humanoids of 5 or more HD are not affected. A dazed subject is not stunned, so attackers get no special advantage against it. After a creature has been dazed by this spell, it is immune to the effects of this spell for 1 minute.

### Detect Magic Witch 0

**School** divination  
**Casting Time** 1 action  
**Components** V, S  
**Range** 60 ft.  
**Area** cone-shaped emanation  
**Duration** concentration, up to 1 min./level (D)  
**Saving Throw** none; **Spell Resistance** no

You detect magical auras. The amount of information revealed depends on how long you study a particular area or subject.

*1st Round:* Presence or absence of magical auras.  
*2nd Round:* Number of different magical auras and the power of the most potent aura.  
*3rd Round:* The strength and location of each aura. If the items or creatures bearing the auras are in line of sight, you can make Knowledge (arcana) skill checks to determine the school of magic involved in each. (Make one check per aura: DC 15 + spell level, or 15 + 1/2 caster level for a nonspell effect.) If the aura emanates from a magic item, you can attempt to identify its properties (see Spellcraft).

Magical areas, multiple types of magic, or strong local magical emanations may distort or conceal weaker auras.

*Aura Strength:* An aura's power depends on a spell's functioning spell level or an item's caster level; see the accompanying table. If an aura falls into more than one category, *detect magic* indicates the stronger of the two.

*Lingering Aura:* A magical aura lingers after its original source dissipates (in the case of a spell) or is destroyed (in the case of a magic item). If *detect magic* is cast and directed at such a location, the spell indicates an aura strength of dim (even weaker than a faint aura). How long the aura lingers at this dim level depends on its original power:

#### Original Strength - Duration of Lingering Aura

Faint - 1d6 rounds  
 Moderate - 1d6 minutes  
 Strong - 1d6 x 10 minutes  
 Overwhelming - 1d6 days

Outsiders and elementals are not magical in themselves, but if they are summoned, the conjuration spell registers. Each round, you can turn to detect magic in a new area. The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

*Detect magic* can be made permanent with a *permanency* spell.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Detect Poison Witch 0

**School** divination  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature, one object, or a 5-ft. cube  
**Duration** instantaneous  
**Saving Throw** none; **Spell Resistance** no

You determine whether a creature, object, or area has been poisoned or is poisonous. You can determine the exact type of poison with a DC 20 Wisdom check. A character with the Craft (alchemy) skill may try a DC 20 Craft (alchemy) check if the Wisdom check fails, or may try the Craft (alchemy) check prior to the Wisdom check. The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

### Guidance Witch 0

**School** divination / void elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** 1 minute or until discharged  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes

This spell imbues the subject with a touch of divine guidance. The creature gets a +1 competence bonus on a single attack roll, saving throw, or skill check. It must choose to use the bonus before making the roll to which it applies.

### Light Witch 0

**School** evocation / wood elemental [light]  
**Casting Time** 1 action  
**Components** V, M/DF (a firefly)  
**Range** touch  
**Target** object touched  
**Duration** 10 min./level  
**Saving Throw** none; **Spell Resistance** no

This spell causes a touched object to glow like a torch, shedding normal light in a 20-foot radius, and increasing the light level for an additional 20 feet by one step, up to normal light (darkness becomes dim light, and dim light becomes normal light). In an area of normal or bright light, this spell has no effect. The effect is immobile, but it can be cast on a movable object. You can only have one light spell active at any one time. If you cast this spell while another casting is still in effect, the previous casting is dispelled. If you make this spell permanent (through permanency or a similar effect), it does not count against this limit.

Light can be used to counter or dispel any darkness spell of equal or lower spell level.

### Mending Witch 0

**School** transmutation / metal elemental  
**Casting Time** 10 minutes  
**Components** V, S  
**Range** 10 ft.  
**Target** one object of up to 1 lb./level  
**Duration** instantaneous  
**Saving Throw** Will negates (harmless, object); **Spell Resistance** yes (harmless, object)

This spell repairs damaged objects, restoring 1d4 hit points to the object. If the object has the broken condition, this condition is removed if the object is restored to at least half its original hit points. All of the pieces of an object must be present for this spell to function. Magic items can be repaired by this spell, but you must have a caster level equal to or higher than that of the object. Magic items that are destroyed (at 0 hit points or less) can be repaired with this spell, but this spell does not restore their magic abilities. This spell does not affect creatures (including constructs). This spell has no effect on objects that have been warped or otherwise transmuted, but it can still repair damage done to such items.

### Message Witch 0

**School** transmutation / air elemental [language-dependent]  
**Casting Time** 1 action  
**Components** V, S, F (a piece of copper wire)  
**Range** medium (100 + 10 ft./level)  
**Target** one creature/level  
**Duration** 10 min./level  
**Saving Throw** none; **Spell Resistance** no

You can whisper messages and receive whispered replies. Those nearby can hear these messages with a DC 25 Perception check. You point your finger at each creature you want to receive the message. When you whisper, the whispered message is audible to all targeted creatures within range. Magical silence, 1 foot of stone, 1 inch of common metal (or a thin sheet of lead), or 3 feet of wood or dirt blocks the spell. The message does not have to travel in a straight line. It can circumvent a barrier if there is an open path between you and the subject, and the path's entire length lies within the spell's range. The creatures that receive the message can whisper a reply that you hear. The spell transmits sound, not meaning; it doesn't transcend language barriers. To speak a message, you must mouth the words and whisper.

### Putrefy Food and Drink Witch 0

**School** transmutation  
**Casting Time** 1 action  
**Components** V, S  
**Range** 10 ft.  
**Target** 1 cu. ft./level of food and water or one potion; see text  
**Duration** instantaneous  
**Saving Throw** DC 23 Will negates (object); **Spell Resistance** yes (object)

This spell causes otherwise edible food to rot and spoil instantly, and water and other liquids to become brackish and undrinkable. Holy water and similar food and drink of significance are spoiled by putrefy food and drink, but the spell has no effect on creatures of any type, nor upon unholy water. Water weighs about 8 pounds per gallon. One cubic foot of water contains roughly 8 gallons and weighs about 60 pounds.

Although potions and elixirs are unaffected by the normal use of the spell, you can instead choose to target a single such object with this spell, destroying it if it fails a saving throw.

### Read Magic Witch 0

**School** divination  
**Casting Time** 1 action  
**Components** V, S, F (a clear crystal or mineral prism)  
**Range** personal  
**Target** you  
**Duration** 10 min./level

You can decipher magical inscriptions on objects - books, scrolls, weapons, and the like - that would otherwise be unintelligible. This deciphering does not normally invoke the magic contained in the writing, although it may do so in the case of a cursed or trapped scroll. Furthermore, once the spell is cast and you have read the magical inscription, you are thereafter able to read that particular writing without recourse to the use of read magic. You can read at the rate of one page (250 words) per minute. The spell allows you to identify a glyph of warding with a DC 13 Spellcraft check, a greater glyph of warding with a DC 16 Spellcraft check, or any symbol spell with a Spellcraft check (DC 10 + spell level).

Read magic can be made permanent with a permanency spell.

### Resistance Witch 0

**School** abjuration  
**Casting Time** 1 action  
**Components** V, S, M/DF (a miniature cloak)  
**Range** touch  
**Target** creature touched  
**Duration** 1 minute  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

You imbue the subject with magical energy that protects it from harm, granting it a +1 resistance bonus on saves.

Resistance can be made permanent with a permanency spell.

### Spark Witch 0

**School** evocation / fire elemental [fire]  
**Casting Time** 1 action  
**Components** V or S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one Fine object  
**Duration** instantaneous  
**Saving Throw** DC 23 Fortitude negates (object); **Spell Resistance** yes (object)

You can make an unattended Fine flammable object catch on fire. This works as if you were using flint and steel except that you can use spark in any sort of weather and it takes much less time to actually ignite an object.

**Appears in** : Advanced Player's Guide

### Stabilize Witch 0

**School** conjuration (healing)  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one living creature  
**Duration** instantaneous  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

Upon casting this spell, you target a living creature that has -1 or fewer hit points. That creature is automatically stabilized and does not lose any further hit points. If the creature later takes damage, it continues dying normally.

### Touch of Fatigue Witch 0

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S, M (a drop of sweat)  
**Range** touch  
**Target** creature touched  
**Duration** 1 round/level  
**Saving Throw** DC 23 Fortitude negates; **Spell Resistance** yes

You channel negative energy through your touch, fatiguing the target. You must succeed on a touch attack to strike a target. The subject is immediately fatigued for the spell's duration.

This spell has no effect on a creature that is already fatigued. Unlike with normal fatigue, the effect ends as soon as the spell's duration expires.

### Burning Hands Witch 1

**School** evocation / fire elemental [fire]  
**Casting Time** 1 action  
**Components** V, S  
**Range** 15 ft.  
**Area** cone-shaped burst  
**Duration** instantaneous  
**Saving Throw** DC 24 Reflex half; **Spell Resistance** yes

A cone of searing flame shoots from your fingertips. Any creature in the area of the flames takes 1d4 points of fire damage per caster level (maximum 5d4). Flammable materials burn if the flames touch them. A character can extinguish burning items as a full-round action.

### Charm Person Witch 1

**School** enchantment / wood elemental (charm) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one humanoid creature  
**Duration** 1 hour/level  
**Saving Throw** DC 24 Will negates; **Spell Resistance** yes

This charm makes a humanoid creature regard you as its trusted friend and ally (treat the target's attitude as friendly). If the creature is currently being threatened or attacked by you or your allies, however, it receives a +5 bonus on its saving throw.

The spell does not enable you to control the charmed person as if it were an automaton, but it perceives your words and actions in the most favorable way. You can try to give the subject orders, but you must win an opposed Charisma check to convince it to do anything it wouldn't ordinarily do. (Retries are not allowed.) An affected creature never obeys suicidal or obviously harmful orders, but it might be convinced that something very dangerous is worth doing. Any act by you or your apparent allies that threatens the charmed person breaks the spell. You must speak the person's language to communicate your commands, or else be good at pantomiming.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Chill Touch

Witch 1

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature or creatures touched (up to one/level)  
**Duration** instantaneous  
**Saving Throw** DC 24 Fortitude partial or Will negates; see text; **Spell Resistance** yes

A touch from your hand, which glows with blue energy, disrupts the life force of living creatures. Each touch channels negative energy that deals 1d6 points of damage. The touched creature also takes 1 point of Strength damage unless it makes a successful Fortitude saving throw. You can use this melee touch attack up to one time per level.

An undead creature you touch takes no damage of either sort, but it must make a successful Will saving throw or flee as if panicked for 1d4 rounds + 1 round per caster level.

### Command

Witch 1

**School** enchantment (compulsion) [language-dependent, mind-affecting]  
**Casting Time** 1 action  
**Components** V  
**Range** close (25 + 5 ft./2 levels)  
**Target** one living creature  
**Duration** 1 round  
**Saving Throw** DC 24 Will negates; **Spell Resistance** yes

You give the subject a single command, which it obeys to the best of its ability at its earliest opportunity. You may select from the following options.

**Approach:** On its turn, the subject moves toward you as quickly and directly as possible for 1 round. The creature may do nothing but move during its turn, and it provokes attacks of opportunity for this movement as normal.

**Drop:** On its turn, the subject drops whatever it is holding. It can't pick up any dropped item until its next turn.

**Fall:** On its turn, the subject falls to the ground and remains prone for 1 round. It may act normally while prone but takes any appropriate penalties.

**Flee:** On its turn, the subject moves away from you as quickly as possible for 1 round. It may do nothing but move during its turn, and it provokes attacks of opportunity for this movement as normal.

**Halt:** The subject stands in place for 1 round. It may not take any actions but is not considered helpless. If the subject can't carry out your command on its next turn, the spell automatically fails.

### Comprehend Languages

Witch 1

**School** divination  
**Casting Time** 1 action  
**Components** V, S, M/DF (pinch of soot and salt)  
**Range** personal  
**Target** you  
**Duration** 10 min./level

You can understand the spoken words of creatures or read otherwise incomprehensible written messages. The ability to read does not necessarily impart insight into the material, merely its literal meaning. The spell enables you to understand or read an unknown language, not speak or write it. Written material can be read at the rate of one page (250 words) per minute. Magical writing cannot be read, though the spell reveals that it is magical. This spell can be foiled by certain warding magic (such as the secret page and illusory script spells). It does not decipher codes or reveal messages concealed in otherwise normal text.

Comprehend languages can be made permanent with a permanency spell.

### Cure Light Wounds

Witch 1

**School** conjuration (healing)  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** instantaneous  
**Saving Throw** Will half (harmless); see text; **Spell Resistance** yes (harmless); see text

When laying your hand upon a living creature, you channel positive energy that cures 1d8 points of damage + 1 point per caster level (maximum +5). Since undead are powered by negative energy, this spell deals damage to them instead of curing their wounds. An undead creature can apply spell resistance, and can attempt a Will save to take half damage.

### Ear-Piercing Scream

Witch 1

**School** evocation [sonic]  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature  
**Duration** instantaneous; see text  
**Saving Throw** DC 24 Fortitude partial (see text); **Spell Resistance** yes

You unleash a powerful scream, inaudible to all but a single target. The target is dazed for 1 round and takes 1d6 points of sonic damage per two caster levels (maximum 5d6). A successful save negates the daze effect and halves the damage.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Enlarge Person Witch 1

**School** transmutation  
**Casting Time** 1 round  
**Components** V, S, M (powdered iron)  
**Range** close (25 + 5 ft./2 levels)  
**Target** one humanoid creature  
**Duration** 1 min./level (D)  
**Saving Throw** DC 24 Fortitude negates; **Spell Resistance** yes

This spell causes instant growth of a humanoid creature, doubling its height and multiplying its weight by 8. This increase changes the creature's size category to the next larger one. The target gains a +2 size bonus to Strength, a -2 size penalty to Dexterity (to a minimum of 1), and a -1 penalty on attack rolls and AC due to its increased size. A humanoid creature whose size increases to Large has a space of 10 feet and a natural reach of 10 feet. This spell does not change the target's speed. If insufficient room is available for the desired growth, the creature attains the maximum possible size and may make a Strength check (using its increased Strength) to burst any enclosures in the process. If it fails, it is constrained without harm by the materials enclosing it - the spell cannot be used to crush a creature by increasing its size. All equipment worn or carried by a creature is similarly enlarged by the spell. Melee weapons affected by this spell deal more damage (see page 145). Other magical properties are not affected by this spell. Any enlarged item that leaves an enlarged creature's possession (including a projectile or thrown weapon) instantly returns to its normal size. This means that thrown and projectile weapons deal their normal damage. Magical properties of enlarged items are not increased by this spell. Multiple magical effects that increase size do not stack.

Enlarge person counters and dispels reduce person.

Enlarge person can be made permanent with a permanency spell.

### Frostbite Witch 1

**School** transmutation [cold]  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** instantaneous  
**Saving Throw** none; **Spell Resistance** yes

Your melee touch attack deals 1d6 points of nonlethal cold damage + 1 point per level, and the target is fatigued. The fatigued condition ends when the target recovers from the nonlethal damage. This spell cannot make a creature exhausted even if it is already fatigued. You can use this melee touch attack up to one time per level.

**Appears in** : Ultimate Magic

### Ill Omen Witch 1

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, M (hair from a black cat)  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature  
**Duration** 1 round/level or until discharged  
**Saving Throw** none; **Spell Resistance** yes

You afflict the target with bad luck. On the next d20 roll the target makes, it must roll twice and take the less favorable result. For every five caster levels you have, the target must roll twice on an additional d20 roll (to a maximum of five rolls at 20th level). A target who can speak and has at least one free hand and who is aware of the spell and its effects (such as from a Spellcraft check to identify the spell as it is cast) can negate one reroll by spending a move action to utter a brief prayer or good luck charm to appease the spirits of ill fortune.

**Appears in** : Advanced Player's Guide

### Mage Armor Witch 1

**School** conjuration (creation) [force]  
**Casting Time** 1 action  
**Components** V, S, F (a piece of cured leather)  
**Range** touch  
**Target** creature touched  
**Duration** 1 hour/level (D)  
**Saving Throw** Will negates (harmless); **Spell Resistance** no

An invisible but tangible field of force surrounds the subject of a mage armor spell, providing a +4 armor bonus to AC. Unlike mundane armor, mage armor entails no armor check penalty, arcane spell failure chance, or speed reduction. Since mage armor is made of force, incorporeal creatures can't bypass it the way they do normal armor.

### Mount Witch 1

**School** conjuration (summoning)  
**Casting Time** 1 round  
**Components** V, S, M (a bit of horse hair)  
**Range** close (25 + 5 ft./2 levels)  
**Effect** one mount  
**Duration** 2 hours/level (D)  
**Saving Throw** none; **Spell Resistance** no

You summon a light horse or a pony (your choice) to serve you as a mount (see the Pathfinder RPG Bestiary). The steed serves willingly and well. The mount comes with a bit and bridle and a riding saddle.

### Obscuring Mist Witch 1

**School** conjuration / water elemental (creation)  
**Casting Time** 1 action  
**Components** V, S  
**Range** 20 ft.  
**Effect** cloud spreads in 20-ft. radius from you, 20 ft. high  
**Duration** 1 min./level (D)  
**Saving Throw** none; **Spell Resistance** no

A misty vapor arises around you. It is stationary. The vapor obscures all sight, including darkvision, beyond 5 feet. A creature 5 feet away has concealment (attacks have a 20% miss chance). Creatures farther away have total concealment (50% miss chance, and the attacker cannot use sight to locate the target). A moderate wind (11+ mph), such as from a gust of wind spell, disperses the fog in 4 rounds. A strong wind (21+ mph) disperses the fog in 1 round. A fireball, flame strike, or similar spell burns away the fog in the explosive or fiery spell's area. A wall of fire burns away the fog in the area into which it deals damage. This spell does not function underwater.

**Alchemical Power Component: Smokestick (M)** : The spell creates a smoky haze instead of mist. This haze cannot be dispersed by fire spells and dissipates naturally after 1 minute.

### Peacebond Witch 1

**School** abjuration  
**Casting Time** 1 action  
**Components** S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one sheathed or slung weapon  
**Duration** 1 minute/level  
**Saving Throw** DC 24 Will negates (object); **Spell Resistance** yes (object)

You lock a weapon in place on its owner's body, or within the weapon's sheath or holster. Anyone who then tries to draw the weapon must spend a standard action and succeed at a Strength check (DC equal to the saving throw DC) to do so, provoking attacks of opportunity whether the attempt succeeds or fails.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Reduce Person Witch 1

**School** transmutation  
**Casting Time** 1 round  
**Components** V, S, M (a pinch of powdered iron)  
**Range** close (25 + 5 ft./2 levels)  
**Target** one humanoid creature  
**Duration** 1 min./level (D)  
**Saving Throw** DC 24 Fortitude negates; **Spell Resistance** yes

This spell causes instant diminution of a humanoid creature, halving its height, length, and width and dividing its weight by 8. This decrease changes the creature's size category to the next smaller one. The target gains a +2 size bonus to Dexterity, a -2 size penalty to Strength (to a minimum of 1), and a +1 bonus on attack rolls and AC due to its reduced size. A Small humanoid creature whose size decreases to Tiny has a space of 2-1/2 feet and a natural reach of 0 feet (meaning that it must enter an opponent's square to attack). A Large humanoid creature whose size decreases to Medium has a space of 5 feet and a natural reach of 5 feet. This spell doesn't change the target's speed. All equipment worn or carried by a creature is similarly reduced by the spell. Melee and projectile weapons deal less damage. Other magical properties are not affected by this spell. Any reduced item that leaves the reduced creature's possession (including a projectile or thrown weapon) instantly returns to its normal size. This means that thrown weapons deal their normal damage (projectiles deal damage based on the size of the weapon that fired them). Multiple magical effects that reduce size do not stack. Reduce person counters and dispels enlarge person.

Reduce person can be made permanent with a permanency spell.

### Remove Sickness Witch 1

**School** conjuration (healing)  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature  
**Duration** 10 minutes/level; see text  
**Saving Throw** DC 24 Fortitude negates (harmless); **Spell Resistance** yes (harmless)

You quell feelings of illness and nausea in the target, giving it a +4 morale bonus on saving throws against disease, nausea, and sickened effects. If the subject is already under the influence of one of these effects when receiving the spell, that effect is suppressed for the duration of the spell.

**Appears in** : Ultimate Magic

### Sleep Witch 1

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 round  
**Components** V, S, M (fine sand, rose petals, or a live cricket)  
**Range** medium (100 + 10 ft./level)  
**Area** one or more living creatures within a 10-ft.-radius burst  
**Duration** 1 min./level  
**Saving Throw** DC 24 Will negates; **Spell Resistance** yes

A sleep spell causes a magical slumber to come upon 4 HD of creatures. Creatures with the fewest HD are affected first. Among creatures with equal HD, those who are closest to the spell's point of origin are affected first. HD that are not sufficient to affect a creature are wasted. Sleeping creatures are helpless. Slapping or wounding awakens an affected creature, but normal noise does not. Awakening a creature is a standard action (an application of the aid another action). Sleep does not target unconscious creatures, constructs, or undead creatures.

### Snowball Witch 1

**School** evocation [cold, water]  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Effect** one ball of ice and snow  
**Duration** instantaneous  
**Saving Throw** none; **Spell Resistance** yes

You throw a ball of elemental ice and snow at a single target as a ranged touch attack. The snowball deals 1d6 points of cold damage per caster level you have (maximum 5d6).

**Appears in** : People of the North, Reign of Winter, Ultimate Wilderness

### Ventriloquism Witch 1

**School** illusion (figment)  
**Casting Time** 1 action  
**Components** V, F (parchment rolled into cone)  
**Range** close (25 + 5 ft./2 levels)  
**Effect** intelligible sound, usually speech  
**Duration** 1 min./level (D)  
**Saving Throw** DC 24 Will disbelief (if interacted with); **Spell Resistance** no

You can make your voice (or any sound that you can normally make vocally) seem to issue from someplace else. You can speak in any language you know. With respect to such voices and sounds, anyone who hears the sound and rolls a successful save recognizes it as illusory (but still hears it).

### Youthful Appearance Witch 1

**School** transmutation (polymorph)  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** 1 hour/level

You make your target look like a younger version of itself. You select how much younger it looks (for example, "10 years" or "as a young adult"). You cannot otherwise change details of the target's appearance other than those directly associated with aging (for example, gray hair returns to its original color). The target cannot appear so much younger that it changes size. This spell does not affect any age-based modifications to ability scores or other age-related effects.

### Alter Self Witch 2

**School** transmutation (polymorph)  
**Casting Time** 1 action  
**Components** V, S, M (a piece of the creature whose form you plan to assume)  
**Range** personal  
**Target** you  
**Duration** 1 min./level (D)

When you cast this spell, you can assume the form of any Small or Medium creature of the humanoid type. If the form you assume has any of the following abilities, you gain the listed ability: darkvision 60 feet, low-light vision, scent, and swim 30 feet.

Small creature: If the form you take is that of a Small humanoid, you gain a +2 size bonus to your Dexterity.

Medium creature: If the form you take is that of a Medium humanoid, you gain a +2 size bonus to your Strength.

### Blindness/Deafness

**Witch 2**

**School** necromancy  
**Casting Time** 1 action  
**Components** V  
**Range** medium (100 + 10 ft./level)  
**Target** one living creature  
**Duration** permanent (D)  
**Saving Throw** DC 25 Fortitude negates; **Spell Resistance** yes

You call upon the powers of unlife to render the subject blinded or deafened, as you choose.

### Blood Transcription

**Witch 2**

**School** divination [evil]  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** one dead spellcaster  
**Duration** 24 hours  
**Saving Throw** none; **Spell Resistance** no

By consuming 1 pint of blood from a spellcaster killed within the last 24 hours, you can attempt to learn a spell that spellcaster knew. Select one spell available to the dead spellcaster (this must be a spell on your spell list); you gain the knowledge of this spell for 24 hours. During this time, you may write it down (or teach it to your familiar, if you are a witch) using the normal rules for copying a spell from another source. Once you have learned it, you may prepare the spell normally.

**Appears in** : Ultimate Magic

### Cure Moderate Wounds

**Witch 2**

**School** conjuration (healing)  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** instantaneous  
**Saving Throw** Will half (harmless); see text; **Spell Resistance** yes (harmless); see text

This spell functions like *cure light wounds*, except that it cures 2d8 points of damage + 1 point per caster level (maximum +10).

#### Cure Light Wounds

When laying your hand upon a living creature, you channel positive energy that cures 1d8 points of damage + 1 point per caster level (maximum +5). Since undead are powered by negative energy, this spell deals damage to them instead of curing their wounds. An undead creature can apply spell resistance, and can attempt a Will save to take half damage.

### Delay Poison

**Witch 2**

**School** conjuration (healing)  
**Casting Time** 1 action  
**Components** V, S, DF  
**Range** touch  
**Target** creature touched  
**Duration** 1 hour/level  
**Saving Throw** Fortitude negates (harmless); **Spell Resistance** yes (harmless)

The subject becomes temporarily immune to poison. Any poison in its system or any poison to which it is exposed during the spell's duration does not affect the subject until the spell's duration has expired. Delay poison does not cure any damage that poison may have already done.

### Detect Thoughts

**Witch 2**

**School** divination [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, F/DF  
**Range** 60 ft.  
**Area** cone-shaped emanation  
**Duration** concentration, up to 1 min./level (D)  
**Saving Throw** DC 25 Will negates; see text; **Spell Resistance** no

You detect surface thoughts. The amount of information revealed depends on how long you study a particular area or subject.

1st Round: Presence or absence of thoughts (from conscious creatures with Intelligence scores of 1 or higher).

2nd Round: Number of thinking minds and the Intelligence score of each. If the highest Intelligence is 26 or higher (and at least 10 points higher than your own Intelligence score), you are stunned for 1 round and the spell ends. This spell does not let you determine the location of the thinking minds if you can't see the creatures whose thoughts you are detecting.

3rd Round: Surface thoughts of any mind in the area. A target's Will save prevents you from reading its thoughts, and you must cast detect thoughts again to have another chance. Creatures of animal intelligence (Int 1 or 2) have simple, instinctual thoughts. Each round, you can turn to detect thoughts in a new area. The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

### Enemy's Heart

**Witch 2**

**Racial Spell for Orc**  
**School** necromancy [death, evil]  
**Casting Time** see text  
**Components** V, S, M (target creature's heart)  
**Range** touch  
**Target** living creature touched  
**Duration** concentration/1 minute per HD of the subject; see text  
**Saving Throw** none; **Spell Resistance** yes

You cut out an enemy's heart and consume it, absorbing that enemy's power as your own. As part of casting this spell, you perform a coup de grace with a slashing weapon on a helpless, living adjacent target. If the target dies, you eat its heart to gain the spell's benefits. If the target survives, the spell is not wasted and you can try again as long as you continue concentrating on the spell. When you consume the heart, you gain the benefits of a *death knell* spell, except you gain 1d8 temporary hit points +1 per Hit Die of the target, and the bonus to Strength is a profane bonus.

**Appears in** : Advanced Race Guide, Orcs of Golarion

### False Life

**Witch 2**

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S, M (a drop of blood)  
**Range** personal  
**Target** you  
**Duration** 1 hour/level or until discharged; see text

You harness the power of unlife to grant yourself a limited ability to avoid death. While this spell is in effect, you gain temporary hit points equal to 1d10 + 1 per caster level (maximum +10).

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Flurry of Snowballs

**Witch 2**

**School** evocation [cold, water]  
**Casting Time** 1 action  
**Components** V, S  
**Range** 30 ft.  
**Area** 30 ft. cone-shaped burst  
**Duration** instantaneous  
**Saving Throw** DC 25 Reflex half; **Spell Resistance** no

You send a flurry of snowballs hurtling at your foes. Any creature in the area takes 4d6 points of cold damage from being pelted with the icy spheres.

**Appears in** : People of the North, Reign of Winter

### Glitterdust

**Witch 2**

**School** conjuration / earth elemental / metal elemental (creation)  
**Casting Time** 1 action  
**Components** V, S, M (ground mica)  
**Range** medium (100 + 10 ft./level)  
**Area** creatures and objects within 10-ft.-radius spread  
**Duration** 1 round/level  
**Saving Throw** DC 25 Will negates (blinding only); **Spell Resistance** no

A cloud of golden particles covers everyone and everything in the area, causing creatures to become blinded and visibly outlining invisible things for the duration of the spell. All within the area are covered by the dust, which cannot be removed and continues to sparkle until it fades. Each round at the end of their turn blinded creatures may attempt new saving throws to end the blindness effect. Any creature covered by the dust takes a -40 penalty on Stealth checks.

### Hold Person

**Witch 2**

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, F/DF  
**Range** medium (100 + 10 ft./level)  
**Target** one humanoid creature  
**Duration** 1 round/level (D); see text  
**Saving Throw** DC 25 Will negates; see text; **Spell Resistance** yes

The subject becomes paralyzed and freezes in place. It is aware and breathes normally but cannot take any actions, even speech. Each round on its turn, the subject may attempt a new saving throw to end the effect. This is a full-round action that does not provoke attacks of opportunity. A winged creature who is paralyzed cannot flap its wings and falls. A swimmer can't swim and may drown.

### Invisibility

**Witch 2**

**School** illusion / void elemental (glamer)  
**Casting Time** 1 action  
**Components** V, S, M/DF (an eyelash encased in gum arabic)  
**Range** personal or touch  
**Target** you or a creature or object weighing no more than 100 lbs./level  
**Duration** 1 min./level (D)  
**Saving Throw** Will negates (harmless) or Will negates (harmless, object); **Spell Resistance** yes (harmless) or yes (harmless, object)

The creature or object touched becomes invisible. If the recipient is a creature carrying gear, that vanishes, too. If you cast the spell on someone else, neither you nor your allies can see the subject, unless you can normally see invisible things or you employ magic to do so.

Items dropped or put down by an invisible creature become visible; items picked up disappear if tucked into the clothing or pouches worn by the creature. Light, however, never becomes invisible, although a source of light can become so (thus, the effect is that of a light with no visible source). Any part of an item that the subject carries but that extends more than 10 feet from it becomes visible.

Of course, the subject is not magically silenced, and certain other conditions can render the recipient detectable (such as swimming in water or stepping in a puddle). If a check is required, a stationary invisible creature has a +40 bonus on its Stealth checks. This bonus is reduced to +20 if the creature is moving. The spell ends if the subject attacks any creature. For purposes of this spell, an attack includes any spell targeting a foe or whose area or effect includes a foe. Exactly who is a foe depends on the invisible character's perceptions. Actions directed at unattended objects do not break the spell. Causing harm indirectly is not an attack. Thus, an invisible being can open doors, talk, eat, climb stairs, summon monsters and have them attack, cut the ropes holding a rope bridge while enemies are on the bridge, remotely trigger traps, open a portcullis to release attack dogs, and so forth. If the subject attacks directly, however, it immediately becomes visible along with all its gear. Spells such as *bless* that specifically affect allies but not foes are not attacks for this purpose, even when they include foes in their area.

*Invisibility* can be made permanent (on objects only) with a *permanency* spell.

### Ironskin

**Witch 2**

**School** transmutation [earth]  
**Casting Time** 1 action  
**Components** V, S, M/DF (a pinch of forge soot)  
**Range** personal  
**Target** you  
**Duration** 1 minute/level (D; see text)

Your skin hardens and takes on the color and texture of rough iron. You gain a +4 enhancement bonus to your existing natural armor bonus (if you do not have a natural armor bonus, you are considered to have an effective natural armor bonus of +0). This enhancement bonus increases by 1 for every 4 caster levels above 4th, to a maximum of +7 at 15th level.

While you're under the effects of this spell, if an opponent confirms a critical hit or sneak attack against you with a physical weapon (not a spell or magical effect), you can dismiss this spell to negate the critical hit or sneak attack and treat it as a normal hit. Dismissing the spell in this way is not an action, but you must be conscious and aware of the attack to do so.

### Returning Weapon

Witch 2

**School** conjuration (teleportation)  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one weapon that can be thrown  
**Duration** 1 minute/level  
**Saving Throw** Will negates (harmless, object); **Spell Resistance** yes (harmless, object)

For the duration of the spell, the target weapon acts as if it had the *returning* weapon special ability (see page 471 of the *Core Rulebook*). This spell can be used as the prerequisite for the *returning* weapon special ability.

**Appears in** : Ultimate Combat

### Scare

Witch 2

**School** necromancy [fear, mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, M (a bone from an undead creature)  
**Range** medium (100 + 10 ft./level)  
**Target** one living creature per three levels, no two of which can be more than 30 ft. apart  
**Duration** 1 round/level or 1 round; see text for cause fear  
**Saving Throw** DC 25 Will partial; **Spell Resistance** yes

This spell functions like *cause fear*, except that it causes all targeted creatures of less than 6 HD to become frightened.

#### Cause Fear

The affected creature becomes frightened. If the subject succeeds on a Will save, it is shaken for 1 round. Creatures with 6 or more HD are immune to this effect. Cause fear counters and dispels remove fear.

### Spectral Hand

Witch 2

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S  
**Range** medium (100 + 10 ft./level)  
**Effect** one spectral hand  
**Duration** 1 min./level (D)  
**Saving Throw** none; **Spell Resistance** no

A ghostly hand shaped from your life force materializes and moves as you desire, allowing you to deliver low-level, touch range spells at a distance. On casting the spell, you lose 1d4 hit points that return when the spell ends (even if it is dispelled), but not if the hand is destroyed. (The hit points can be healed as normal.) For as long as the spell lasts, any touch range spell of 4th level or lower that you cast can be delivered by the spectral hand. The spell gives you a +2 bonus on your melee touch attack roll, and attacking with the hand counts normally as an attack. The hand always strikes from your direction. The hand cannot flank targets like a creature can. After it delivers a spell, or if it goes beyond the spell range or goes out of your sight, the hand returns to you and hovers. The hand is incorporeal and thus cannot be harmed by normal weapons. It has improved evasion (half damage on a failed Reflex save and no damage on a successful save), your save bonuses, and an AC of 22 (+8 size, +4 natural armor). Your Intelligence modifier applies to the hand's AC as if it were the hand's Dexterity modifier. The hand has 1 to 4 hit points, the same number that you lost in creating it.

### Touch of Idiocy

Witch 2

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** living creature touched  
**Duration** 10 min./level  
**Saving Throw** no; **Spell Resistance** yes

With a touch, you reduce the target's mental faculties. Your successful melee touch attack applies a 1d6 penalty to the target's Intelligence, Wisdom, and Charisma scores. This penalty can't reduce any of these scores below 1. This spell's effect may make it impossible for the target to cast some or all of its spells, if the requisite ability score drops below the minimum required to cast spells of that level.

### Vomit Swarm

Witch 2

**School** conjuration (summoning)  
**Casting Time** 1 action  
**Components** S  
**Range** personal  
**Effect** one swarm of spiders  
**Duration** 1 round/level

You vomit forth a swarm of spiders (Bestiary, page 258) that attacks all other creatures within its area. The swarm begins adjacent to you, but if no living creatures are within its area, it moves in one direction of your choosing at its normal speed. You can move the swarm or change the swarm's direction by spending a standard action to concentrate on the swarm, otherwise it continues moving in its current direction. If your caster level is at least 7th, you can vomit forth a swarm of wasps instead (Bestiary 275). Finally, if your caster level is at least 13th, you can vomit forth a swarm of army ants (Bestiary 16).

### Zone of Truth

Witch 2

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, DF  
**Range** close (25 + 5 ft./2 levels)  
**Area** 20-ft.-radius emanation  
**Duration** 1 min./level  
**Saving Throw** DC 25 Will negates; **Spell Resistance** yes

Creatures within the emanation area (or those who enter it) can't speak any deliberate and intentional lies. Each potentially affected creature is allowed a save to avoid the effects when the spell is cast or when the creature first enters the emanation area. Affected creatures are aware of this enchantment. Therefore, they may avoid answering questions to which they would normally respond with a lie, or they may be evasive as long as they remain within the boundaries of the truth. Creatures who leave the area are free to speak as they choose.

### Barrow Haze

Witch 3

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S  
**Range** medium (100 + 10 ft./level)  
**Effect** fog spreads in 20-ft. radius, 20 ft. high  
**Duration** 1 minute/level  
**Saving Throw** none; **Spell Resistance** no

*Barrow haze* creates a bank of fog similar to that created by *fog cloud*, except that the vapors are black and they have a necromantic link to you. The vapors do not interfere with your vision. Because of your link to the haze, if any part of it is within 30 feet of you, any creatures within the haze count as in range for the purpose of using any of your hexes that have a maximum range of 30 feet.

For example, suppose you have the slumber hex, you are 25 feet from one edge of the haze, and an opponent is 40 feet farther away at the other extreme of the cloud. You can use your slumber hex on that opponent even though it is actually 65 feet away from you.

#### Fog Cloud

A bank of fog billows out from the point you designate. The fog obscures all sight, including darkvision, beyond 5 feet. A creature within 5 feet has concealment (attacks have a 20% miss chance). Creatures farther away have total concealment (50% miss chance, and the attacker can't use sight to locate the target). A moderate wind (11+ mph) disperses the fog in 4 rounds; a strong wind (21+ mph) disperses the fog in 1 round. The spell does not function underwater.

**Alchemical Power Component: Smokestick (M)** : Increase the radius of the cloud by 5 feet.

**Appears in** : Advanced Class Guide

### Bestow Curse

Witch 3

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** permanent  
**Saving Throw** DC 26 Will negates; **Spell Resistance** yes

You place a curse on the subject. Choose one of the following.

- - 6 decrease to an ability score (minimum 1).
- - 4 penalty on attack rolls, saves, ability checks, and skill checks.
- Each turn, the target has a 50% chance to act normally; otherwise, it takes no action.

You may also invent your own curse, but it should be no more powerful than those described above. The curse bestowed by this spell cannot be dispelled, but it can be removed with a *break enchantment*, *limited wish*, *miracle*, *remove curse*, or *wish* spell.

*Bestow curse* counters *remove curse*.

### Blink

Witch 3

**School** transmutation / aether elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** personal  
**Target** you  
**Duration** 1 round/level (D)

You "blink" quickly back and forth between the Material Plane and the Ethereal Plane and look as though you're winking in and out of reality at random. Blink has several effects, as follows. Physical attacks against you have a 50% miss chance, and the Blind-Fight feat doesn't help opponents, since you're ethereal and not merely invisible. If the attack is capable of striking ethereal creatures, the miss chance is only 20% (for concealment). If the attacker can see invisible creatures, the miss chance is also only 20%. (For an attacker who can both see and strike ethereal creatures, there is no miss chance.) Likewise, your own attacks have a 20% miss chance, since you sometimes go ethereal just as you are about to strike. Any individually targeted spell has a 50% chance to fail against you while you're blinking unless your attacker can target invisible, ethereal creatures. Your own spells have a 20% chance to activate just as you go ethereal, in which case they typically do not affect the Material Plane (but they might affect targets on the Ethereal Plane). While blinking, you take only half damage from area attacks (but full damage from those that extend onto the Ethereal Plane). Although you are only partially visible, you are not considered invisible and targets retain their Dexterity bonus to AC against your attacks. You do receive a +2 bonus on attack rolls made against enemies that cannot see invisible creatures. You take only half damage from falling, since you fall only while you are material. While blinking, you can step through (but not see through) solid objects. For each 5 feet of solid material you walk through, there is a 50% chance that you become material. If this occurs, you are shunted off to the nearest open space and take 1d6 points of damage per 5 feet so traveled. Since you spend about half your time on the Ethereal Plane, you can see and even attack ethereal creatures. You interact with ethereal creatures roughly the same way you interact with material ones. An ethereal creature is invisible, incorporeal, and capable of moving in any direction, even up or down. As an incorporeal creature, you can move through solid objects, including living creatures. An ethereal creature can see and hear the Material Plane, but everything looks gray and insubstantial. Sight and hearing on the Material Plane are limited to 60 feet. Force effects and abjurations affect you normally. Their effects extend onto the Ethereal Plane from the Material Plane, but not vice versa. An ethereal creature can't attack material creatures, and spells you cast while ethereal affect only other ethereal things. Certain material creatures or objects have attacks or effects that work on the Ethereal Plane. Treat other ethereal creatures and objects as material.

### Dispel Magic Witch 3

**School** abjuration / void elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** medium (100 + 10 ft./level)  
**Target** one spellcaster, creature, or object  
**Duration** instantaneous  
**Saving Throw** none; **Spell Resistance** no

You can use dispel magic to end one ongoing spell that has been cast on a creature or object, to temporarily suppress the magical abilities of a magic item, or to counter another spellcaster's spell. A dispelled spell ends as if its duration had expired. Some spells, as detailed in their descriptions, can't be defeated by dispel magic. Dispel magic can dispel (but not counter) spell-like effects just as it does spells. The effect of a spell with an instantaneous duration can't be dispelled, because the magical effect is already over before the dispel magic can take effect. You choose to use dispel magic in one of two ways: a targeted dispel or a counterspell.

**Targeted Dispel:** One object, creature, or spell is the target of the dispel magic spell. You make one dispel check (1d20 + your caster level) and compare that to the spell with highest caster level (DC = 11 + the spell's caster level). If successful, that spell ends. If not, compare the same result to the spell with the next highest caster level. Repeat this process until you have dispelled one spell affecting the target, or you have failed to dispel every spell. For example, a 7th-level caster casts dispel magic, targeting a creature affected by stonewall (caster level 12th) and fly (caster level 6th). The caster level check results in a 19. This check is not high enough to end the stonewall (which would have required a 23 or higher), but it is high enough to end the fly (which only required a 17). Had the dispel check resulted in a 23 or higher, the stonewall would have been dispelled, leaving the fly intact. Had the dispel check been a 16 or less, no spells would have been affected. You can also use a targeted dispel to specifically end one spell affecting the target or one spell affecting an area (such as a wall of fire). You must name the specific spell effect to be targeted in this way. If your caster level check is equal to or higher than the DC of that spell, it ends. No other spells or effects on the target are dispelled if your check is not high enough to end the targeted effect. If you target an object or creature that is the effect of an ongoing spell (such as a monster summoned by summon monster), you make a dispel check to end the spell that conjured the object or creature. If the object that you target is a magic item, you make a dispel check against the item's caster level (DC = 11 + the item's caster level). If you succeed, all the item's magical properties are suppressed for 1d4 rounds, after which the item recovers its magical properties. A suppressed item becomes nonmagical for the duration of the effect. An interdimensional opening (such as a bag of holding) is temporarily closed. A magic item's physical properties are unchanged: A suppressed magic sword is still a sword (a masterwork sword, in fact). Artifacts and deities are unaffected by mortal magic such as this. You automatically succeed on your dispel check against any spell that you cast yourself.

**Counterspell:** When dispel magic is used in this way, the spell targets a spellcaster and is cast as a counterspell. Unlike a true counterspell, however, dispel magic may not work; you must make a dispel check to counter the other spellcaster's spell.

### Fly Witch 3

**School** transmutation / air elemental  
**Casting Time** 1 action  
**Components** V, S, F (a wing feather)  
**Range** touch  
**Target** creature touched  
**Duration** 1 min./level  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

The subject can fly at a speed of 60 feet (or 40 feet if it wears medium or heavy armor, or if it carries a medium or heavy load). It can ascend at half speed and descend at double speed, and its maneuverability is good. Using a fly spell requires only as much concentration as walking, so the subject can attack or cast spells normally. The subject of a fly spell can charge but not run, and it cannot carry aloft more weight than its maximum load, plus any armor it wears. The subject gains a bonus on Fly skill checks equal to 1/2 your caster level. Should the spell duration expire while the subject is still aloft, the magic fails slowly. The subject floats downward 60 feet per round for 1d6 rounds. If it reaches the ground in that amount of time, it lands safely. If not, it falls the rest of the distance, taking 1d6 points of damage per 10 feet of fall. Since dispelling a spell effectively ends it, the subject also descends safely in this way if the fly spell is dispelled, but not if it is negated by an antimagic field.

### Irriseni Mirror Sight Witch 3

**School** divination (scrying)  
**Casting Time** 10 minutes  
**Components** V, S, F (a mirror)  
**Range** see text  
**Effect** magical sensor  
**Duration** 1 minute/level  
**Saving Throw** none; **Spell Resistance** no

This spell lets you look into a mirror near you and see an image that is reflected in another specific mirror (chosen by you) or an individual reflected in any other mirror. This works like a *scrying* spell, except you can only view creatures on the same plane as you. Each time you cast the spell, you can choose to see one of three types of reflections in your mirror.

*Known Mirror:* The current reflection in another mirror with which you are familiar.

*Known Person:* The current reflection of a person you know well, assuming that person is near a mirror.

*Known Place:* The current reflection of a place you know well, assuming the location is being reflected in a mirror.

You receive only visual information through this ability. You can choose to transmit information both ways so that a person reflected in the remote mirror can view whatever appears in the mirror you are using.

For example, Urion Petresky knows that Queen Elvanna keeps a mirror in a hall near her throne room. He can look through his own handheld mirror and see into this hall, even if the queen is not there. Alternatively, he can attempt to find the queen (wherever she is) by looking into his mirror; if, at that moment, the queen is near any mirror at all, he can see her. He may instead cast the spell and try to see into her throne room, hoping that someone has brought a mirror there. If any of these conditions fails, Urion sees nothing but his own reflection.

This spell works with intentionally fabricated mirrors only; it is not effective with other reflective surfaces, such as still pools or polished metal shields. Effects that block *scrying* block this spell.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Lightning Bolt Witch 3

**School** evocation / air elemental / metal elemental [electricity]  
**Casting Time** 1 action  
**Components** V, S, M (fur and a glass rod)  
**Range** 120 ft.  
**Area** 120-ft. line  
**Duration** instantaneous  
**Saving Throw** DC 26 Reflex half; **Spell Resistance** yes

You release a powerful stroke of electrical energy that deals 1d6 points of electricity damage per caster level (maximum 10d6) to each creature within its area. The bolt begins at your fingertips. The lightning bolt sets fire to combustibles and damages objects in its path. It can melt metals with a low melting point, such as lead, gold, copper, silver, or bronze. If the damage caused to an interposing barrier shatters or breaks through it, the bolt may continue beyond the barrier if the spell's range permits; otherwise, it stops at the barrier just as any other spell effect does.

### Quell Energy Witch 3

**School** abjuration  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature  
**Duration** 1 round/level  
**Saving Throw** DC 26 Will partial; **Spell Resistance** yes

You reduce the target creature's ability to tap into a single energy type (acid, cold, electricity, fire, or sonic) of your choice. This reduces damage of the selected type the creature deals with spells, spell-like abilities, and supernatural abilities by 10 points. Multiple castings of this spell stack. Damage from sources other than the creature, such as objects and magic items, is not reduced. If the damage of one of the creature's effects is negated entirely, any additional effects associated with that damage (such being stunned by *sound burst* or set on fire by a fire elemental) are also negated. At 13th level, you reduce the target's damage by 20 points, and at 19th level, you reduce the target's damage by 30 points.

If the target succeeds on its saving throw, the spell's duration is reduced to 1 round.

**Appears in** : Occult Origins

### Remove Curse Witch 3

**School** abjuration  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature or object touched  
**Duration** instantaneous  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

Remove curse can remove all curses on an object or a creature. If the target is a creature, you must make a caster level check (1d20 + caster level) against the DC of each curse affecting the target. Success means that the curse is removed. Remove curse does not remove the curse from a cursed shield, weapon, or suit of armor, although a successful caster level check enables the creature afflicted with any such cursed item to remove and get rid of it.

Remove curse counters and dispels bestow curse.

### Screech Witch 3

**School** evocation [sonic]  
**Casting Time** 1 action  
**Components** V  
**Range** 30 ft.  
**Area** 30-ft.-radius spread centered on you  
**Duration** instantaneous  
**Saving Throw** DC 26 Fortitude negates; **Spell Resistance** yes

You emit a shrill, piercing shriek, startling those around you into dropping their guard. Enemies in the area must make a successful saving throw or immediately provoke attacks of opportunity from foes that threaten them. You and your allies are unaffected by your own screech.

**Appears in** : Advanced Player's Guide

### Sleet Storm Witch 3

**School** conjuration / water elemental (creation) [cold]  
**Casting Time** 1 action  
**Components** V, S, M/DF (dust and water)  
**Range** long (400 + 40 ft./level)  
**Area** cylinder (40-ft. radius, 20 ft. high)  
**Duration** 1 round/level  
**Saving Throw** none; **Spell Resistance** no

Driving sleet blocks all sight (even darkvision) within it and causes the ground in the area to be icy. A creature can walk within or through the area of sleet at half normal speed with a DC 10 Acrobatics check. Failure means it can't move in that round, while failure by 5 or more means it falls (see the Acrobatics skill for details). The sleet extinguishes torches and small fires.

### Suggestion Witch 3

**School** enchantment (compulsion) [language-dependent, mind-affecting]  
**Casting Time** 1 action  
**Components** V, M (a snake's tongue and a honeycomb)  
**Range** close (25 + 5 ft./2 levels)  
**Target** one living creature  
**Duration** 1 hour/level or until completed  
**Saving Throw** DC 26 Will negates; **Spell Resistance** yes

You influence the actions of the target creature by suggesting a course of activity (limited to a sentence or two). The suggestion must be worded in such a manner as to make the activity sound reasonable. Asking the creature to do some obviously harmful act automatically negates the effect of the spell. The suggested course of activity can continue for the entire duration. If the suggested activity can be completed in a shorter time, the spell ends when the subject finishes what it was asked to do. You can instead specify conditions that will trigger a special activity during the duration. If the condition is not met before the spell duration expires, the activity is not performed. A very reasonable suggestion causes the save to be made with a penalty (such as -1 or -2).

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Tongues

**Witch 3**

**School** divination / wood elemental  
**Casting Time** 1 action  
**Components** V, M/DF (a clay model of a ziggurat)  
**Range** touch  
**Target** creature touched  
**Duration** 10 min./level  
**Saving Throw** Will negates (harmless); **Spell Resistance** no

This spell grants the creature touched the ability to speak and understand the language of any intelligent creature, whether it is a racial tongue or a regional dialect. The subject can speak only one language at a time, although it may be able to understand several languages. Tongues does not enable the subject to speak with creatures who don't speak. The subject can make itself understood as far as its voice carries. This spell does not predispose any creature addressed toward the subject in any way.

Tongues can be made permanent with a permanency spell.

### Trial of Fire and Acid

**Witch 3**

**School** evocation [acid, fire]  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** 1 round/level  
**Saving Throw** DC 26 Fortitude half (see text); **Spell Resistance** no

The target creature is covered in burning acid that deals 1d6 points of acid damage and 1d6 points of fire damage each round. The subject can attempt a Fortitude saving throw each round to reduce the damage by half. Dousing the target in water ends the effect (both the acid and the fire), but rolling on the ground does not extinguish the fire or affect the acid.

**Appears in** : Monster Codex

### Vampiric Touch

**Witch 3**

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** living creature touched  
**Duration** instantaneous/1 hour; see text  
**Saving Throw** none; **Spell Resistance** yes

You must succeed on a melee touch attack. Your touch deals 1d6 points of damage per two caster levels (maximum 10d6). You gain temporary hit points equal to the damage you deal. You can't gain more than the subject's current hit points + the subject's Constitution score (which is enough to kill the subject). The temporary hit points disappear 1 hour later.

### Black Tentacles

**Witch 4**

**School** conjuration (creation)  
**Casting Time** 1 action  
**Components** V, S, M (octopus or squid tentacle)  
**Range** medium (100 + 10 ft./level)  
**Area** 20-ft.-radius spread  
**Duration** 1 round/level (D)  
**Saving Throw** none; **Spell Resistance** no

This spell causes a field of rubbery black tentacles to appear, burrowing up from the floor and reaching for any creature in the area. Every creature within the area of the spell is the target of a combat maneuver check made to grapple each round at the beginning of your turn, including the round that black tentacles is cast. Creatures that enter the area of effect are also automatically attacked. The tentacles do not provoke attacks of opportunity. When determining the tentacles' CMB, the tentacles use your caster level as their base attack bonus and receive a +4 bonus due to their Strength and a +1 size bonus. Roll only once for the entire spell effect each round and apply the result to all creatures in the area of effect.

If the tentacles succeed in grappling a foe, that foe takes 1d6+4 points of damage and gains the grappled condition. Grappled opponents cannot move without first breaking the grapple. All other movement is prohibited unless the creature breaks the grapple first. The black tentacles spell receives a +5 bonus on grapple checks made against opponents it is already grappling, but cannot move foes or pin foes. Each round that black tentacles succeeds on a grapple check, it deals an additional 1d6+4 points of damage. The CMD of black tentacles, for the purposes of escaping the grapple, is equal to 10 + its CMB. The tentacles created by this spell cannot be damaged, but they can be dispelled as normal. The entire area of effect is considered difficult terrain while the tentacles last.

### Confusion

**Witch 4**

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, M/DF (three nutshells)  
**Range** medium (100 + 10 ft./level)  
**Target** all creatures in a 15-ft.-radius burst  
**Duration** 1 round/level  
**Saving Throw** DC 27 Will negates; **Spell Resistance** yes

This spell causes confusion in the targets, making them unable to determine their actions. Roll on the following table at the start of each subject's turn each round to see what it does in that round.

d% - Behavior  
 01-25 - Act normally  
 26-50 - Do nothing but babble incoherently  
 51-75 - Deal 1d8 points of damage + Str modifier to self with item in hand  
 76-100 - Attack nearest creature (for this purpose, a familiar counts as part of the subject's self)

A confused character who can't carry out the indicated action does nothing but babble incoherently. Attackers are not at any special advantage when attacking a confused character. Any confused character who is attacked automatically attacks its attackers on its next turn, as long as it is still confused when its turn comes. Note that a confused character will not make attacks of opportunity against any creature that it is not already devoted to attacking (either because of its most recent action or because it has just been attacked).

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Enervation Witch 4

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Effect** ray of negative energy  
**Duration** instantaneous  
**Saving Throw** none; **Spell Resistance** yes

You point your finger and fire a black ray of negative energy that suppresses the life force of any living creature it strikes. You must make a ranged touch attack to hit. If you hit, the subject gains 1d4 temporary negative levels (see Appendix 1). Negative levels stack. Assuming the subject survives, it regains lost levels after a number of hours equal to your caster level (maximum 15 hours). Usually, negative levels have a chance of becoming permanent, but the negative levels from enervation don't last long enough to do so. An undead creature struck by the ray gains 1d4 x 5 temporary hit points for 1 hour.

### False Life, Greater Witch 4

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S, M (a drop of blood)  
**Range** personal  
**Target** you  
**Duration** 1 hour/level or until discharged; see text  
**Saving Throw** none; **Spell Resistance** -

This spell functions as *false life*, except you gain temporary hit points equal to 2d10 + 1 point per caster level (maximum +20). The effects of this spell do not stack with those of false life.

#### False Life

You harness the power of unlife to grant yourself a limited ability to avoid death. While this spell is in effect, you gain temporary hit points equal to 1d10 + 1 per caster level (maximum +10).

**Appears in** : Ultimate Magic

### Fear Witch 4

**School** necromancy [fear, mind-affecting]  
**Casting Time** 1 action  
**Components** V, S, M (the heart of a hen or a white feather)  
**Range** 30 ft.  
**Area** cone-shaped burst  
**Duration** 1 round/level or 1 round; see text  
**Saving Throw** DC 27 Will partial; **Spell Resistance** yes

An invisible cone of terror causes each living creature in the area to become panicked unless it succeeds on a Will save. If cornered, a panicked creature begins cowering. If the Will save succeeds, the creature is shaken for 1 round.

### Fleshworm Infestation Witch 4

**School** conjuration (summoning) [evil]  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** 1 round/level (D)  
**Saving Throw** DC 27 Fortitude partial (see text); **Spell Resistance** yes

With a touch, you cause an infestation of ravenous worms to manifest in the target's flesh. The target must make a Fortitude save every round. Failure means it takes 1d6 hit points of damage and 2 points of Dexterity damage, and is staggered for 1 round. If it makes the save, it takes no hit point or Dexterity damage and is only sickened for 1 round rather than staggered. Fleshworm infestation cannot be ended early by remove disease or heal, as the infestation starts anew if the current worms are slain. Protection from evil negates this spell's effects for as long as the two durations overlap.

Dispel evil automatically ends a fleshworm infestation.

**Appears in** : Ultimate Magic

### Geas, Lesser Witch 4

**School** enchantment (compulsion) [language-dependent, mind-affecting]  
**Casting Time** 1 round  
**Components** V  
**Range** close (25 + 5 ft./2 levels)  
**Target** one living creature with 7 HD or less  
**Duration** 1 day/level or until discharged (D)  
**Saving Throw** DC 27 Will negates; **Spell Resistance** yes

A *lesser geas* places a magical command on a creature to carry out some service or to refrain from some action or course of activity, as desired by you. The creature must have 7 or fewer HD and be able to understand you. While a *geas* cannot compel a creature to kill itself or perform acts that would result in certain death, it can cause almost any other course of activity.

The *geased* creature must follow the given instructions until the *geas* is completed, no matter how long it takes.

If the instructions involve some open-ended task that the recipient cannot complete through his own actions, the spell remains in effect for a maximum of 1 day per caster level. A clever recipient can subvert some instructions.

If the subject is prevented from obeying the *lesser geas* for 24 hours, it takes a -2 penalty to each of its ability scores. Each day, another -2 penalty accumulates, up to a total of -8. No ability score can be reduced to less than 1 by this effect. The ability score penalties are removed 24 hours after the subject resumes obeying the *lesser geas*.

A *lesser geas* (and all ability score penalties) can be ended by *break enchantment*, *limited wish*, *remove curse*, *miracle*, or *wish*. *Dispel magic* does not affect a *lesser geas*.

**Ice Storm**

**Witch 4**

**School** evocation / water elemental [cold]  
**Casting Time** 1 action  
**Components** V, S, M/DF (dust and water)  
**Range** long (400 + 40 ft./level)  
**Area** cylinder (20-ft. radius, 40 ft. high)  
**Duration** 1 round/level (D)  
**Saving Throw** none; **Spell Resistance** yes

Great magical hailstones pound down upon casting this spell, dealing 3d6 points of bludgeoning damage and 2d6 points of cold damage to every creature in the area. This damage only occurs once, when the spell is cast. For the remaining duration of the spell, heavy snow and sleet rains down in the area. Creatures inside this area take a -4 penalty on Perception skill checks and the entire area is treated as difficult terrain. At the end of the duration, the snow and hail disappear, leaving no aftereffects (other than the damage dealt).

**Phantasmal Killer**

**Witch 4**

**School** illusion (phantasm) [fear, mind-affecting]  
**Casting Time** 1 action  
**Components** V, S  
**Range** medium (100 + 10 ft./level)  
**Target** one living creature  
**Duration** instantaneous  
**Saving Throw** DC 27 Will disbelief, then Fortitude partial; see text;  
**Spell Resistance** yes

You create a phantasmal image of the most fearsome creature imaginable to the subject simply by forming the fears of the subject's subconscious mind into something that its conscious mind can visualize: this most horrible beast. Only the spell's subject can see the *phantasmal killer*. You see only a vague shape. The target first gets a Will save to recognize the image as unreal. If that save fails, the phantasm touches the subject, and the subject must succeed on a Fortitude save or die from fear. Even if the Fortitude save is successful, the subject takes 3d6 points of damage.

If the subject of a *phantasmal killer* attack succeeds in disbelieving and possesses telepathy or is wearing a *helm of telepathy*, the beast can be turned upon you. You must then disbelieve it or become subject to its deadly fear attack.

**Summon Monster IV**

**Witch 4**

**School** conjuration / all elements (summoning)  
**Casting Time** 1 round  
**Components** V, S, F/DF  
**Range** close (25 + 5 ft./2 levels)  
**Effect** one summoned creature  
**Duration** 1 round/level (D)  
**Saving Throw** none; **Spell Resistance** no

This spell functions like *summon monster I*, except that you can summon one creature from the 4th-level list, 1d3 creatures of the same kind from the 3rd-level list, or 1d4+1 creatures of the same kind from a lower-level list.

**Summon Monster Tables**

**4th Level** : Ant, giant (drone)\*, Bison (herd animal)\*, Deinonychus (dinosaur)\*, Dire ape\*, Dire boar\*, Dire wolf\*, Elemental (Medium) [Elemental subtype], Giant scorpion\*, Giant wasp\*, Grizzly bear\*, Hell hound [Evil, Lawful subtypes], Hound archon [Good, Lawful subtypes], Lion\*, Mephit (any) [Elemental subtype], Pteranodon (dinosaur)\*, Rhinoceros\*

**3rd Level** : Ant, giant (soldier)\*, Ape\*, Aurochs (herd animal)\*, Boar\*, Cheetah\*, Constrictor snake\*, Crocodile\*, Dire bat\*, Dretch (demon) [Chaotic, Evil subtypes], Electric eel\*, Giant lizard\*, Lantern archon [Good, Lawful subtypes], Leopard (cat)\*, Shark\*, Wolverine\*

**2nd Level** : Ant, giant (worker)\*, Elemental (Small) [Elemental subtype], Giant centipede\*, Giant frog\*, Giant spider\*, Goblin dog\*, Horse\*, Hyena\*, Lemure (devil) [Evil, Lawful subtypes] Octopus\*, Squid\*, Wolf\*

\* This creature is summoned with the celestial template if you are good, or the fiendish template if you are evil; you may choose either if you are neutral.

**Summon Monster I**

This spell summons an extraplanar creature (typically an outsider, elemental, or magical beast native to another plane). It appears where you designate and acts immediately, on your turn. It attacks your opponents to the best of its ability. If you can communicate with the creature, you can direct it not to attack, to attack particular enemies, or to perform other actions. The spell conjures one of the creatures from the 1st Level list on Table 10-1. You choose which kind of creature to summon, and you can choose a different one each time you cast the spell. A summoned monster cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities. Creatures cannot be summoned into an environment that cannot support them. Creatures summoned using this spell cannot use spells or spell-like abilities that duplicate spells with expensive material components (such as wish). When you use a summoning spell to summon a creature with an alignment or elemental subtype, it is a spell of that type. Creatures on Table 10-1 marked with an "\*" are summoned with the celestial template, if you are good, and the fiendish template, if you are evil. If you are neutral, you may choose which template to apply to the creature. Creatures marked with an "\*\*" always have an alignment that matches yours, regardless of their usual alignment. Summoning these creatures makes the summoning spell's type match your alignment.

**Summon Monster Tables**

**1st Level** : Dire rat\*, Dog\*, Dolphin\*, Eagle\*, Fire beetle\*, Frog, poison\*, Pony (horse)\*, Viper (snake)\*

\* This creature is summoned with the celestial template if you are good, or the fiendish template if you are evil; you may choose either if you are neutral.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

Threefold Aspect	Witch 4	Baleful Polymorph	Witch 5
------------------	---------	-------------------	---------

**School** transmutation  
**Casting Time** 1 action  
**Components** S, F (silver crescent worth 5 gp)  
**Range** personal  
**Target** you  
**Duration** 24 hours (D)

Threefold aspect allows you to shift your appearance between your natural age and three idealized age categories: young adult (youth/maiden), adulthood (father/mother), or elderly (elder/crone). In each case, your appearance is your own at the appropriate age, rather than that of a new individual. You may change between these three aspects or your actual age as a standard action. As the young adult, you gain a +2 enhancement bonus to Dexterity and Constitution, but suffer a -2 penalty to Wisdom. In the adult aspect, you gain a +2 enhancement bonus to Wisdom and Intelligence, but take a -2 penalty to Dexterity. As the elderly aspect, you gain a +4 enhancement bonus to Wisdom and Intelligence, but take a -2 penalty to Strength and Dexterity. As enhancement bonuses, these stack with any bonuses or penalties you may have from your actual age (which are untyped bonuses) - the bonuses granted by this spell represent your idealized form in this threefold aspect rather than simply duplicating your ability scores at any one particular age.

True seeing reveals your natural appearance overlaid with that your aspect, recognizing both as part of your true self. Individuals who study you closely and have interacted with you at another apparent age recognize a resemblance (as though family) with a successful DC 20 Perception check.

Threefold aspect does not alter your clothing or equipment, and does not heal any deformity or injury unrelated to age.

Volcanic Storm	Witch 4
----------------	---------

**School** evocation / fire elemental [fire]  
**Casting Time** 1 action  
**Components** V, S, M/DF (obsidian and ash)  
**Range** long (400 + 40 ft./level)  
**Area** cylinder (20-ft. radius, 40 ft. high)  
**Duration** 1 round/level (D)  
**Saving Throw** none; **Spell Resistance** yes

Chunks of hot volcanic rock and clumps of ash pound down when this spell is cast, dealing 3d6 points of bludgeoning damage and 2d6 points of fire damage to every creature in the area. This damage only occurs once, when the spell is cast. For the remaining duration of the spell, heavy ash rains down in the area. Creatures inside this area take a -4 penalty on Perception skill checks and the entire area is treated as difficult terrain. At the end of the duration, the rock and ash disappear, leaving no aftereffects (other than the damage dealt).

**Appears in :** Ultimate Magic

**School** transmutation (polymorph)  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature  
**Duration** permanent  
**Saving Throw** DC 28 Fortitude negates, Will partial, see text; **Spell Resistance** yes

As *beast shape III*, except that you change the subject into a Small or smaller animal of no more than 1 HD. If the new form would prove fatal to the creature, such as an aquatic creature not in water, the subject gets a +4 bonus on the save.

If the spell succeeds, the subject must also make a Will save. If this second save fails, the creature loses its extraordinary, supernatural, and spell-like abilities, loses its ability to cast spells (if it had the ability), and gains the alignment, special abilities, and Intelligence, Wisdom, and Charisma scores of its new form in place of its own. It still retains its class and level (or HD), as well as all benefits deriving therefrom (such as base attack bonus, base save bonuses, and hit points). It retains any class features (other than spellcasting) that aren't extraordinary, supernatural, or spell-like abilities.

Any polymorph effects on the target are automatically dispelled when a target fails to resist the effects of *baleful polymorph*, and as long as *baleful polymorph* remains in effect, the target cannot use other polymorph spells or effects to assume a new form. Incorporeal or gaseous creatures are immune to *baleful polymorph*, and a creature with the shapechanger subtype can revert to its natural form as a standard action.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

Dominate Person	Witch 5	Magic Jar	Witch 5
-----------------	---------	-----------	---------

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 round  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one humanoid  
**Duration** 1 day/level  
**Saving Throw** DC 28 Will negates; **Spell Resistance** yes

You can control the actions of any humanoid creature through a telepathic link that you establish with the subject's mind. If you and the subject have a common language, you can generally force the subject to perform as you desire, within the limits of its abilities. If no common language exists, you can communicate only basic commands, such as "Come here," "Go there," "Fight," and "Stand still." You know what the subject is experiencing, but you do not receive direct sensory input from it, nor can it communicate with you telepathically. Once you have given a dominated creature a command, it continues to attempt to carry out that command to the exclusion of all other activities except those necessary for day-to-day survival (such as sleeping, eating, and so forth). Because of this limited range of activity, a Sense Motive check against DC 15 (rather than DC 25) can determine that the subject's behavior is being influenced by an enchantment effect (see the Sense Motive skill description). Changing your orders or giving a dominated creature a new command is a move action. By concentrating fully on the spell (a standard action), you can receive full sensory input as interpreted by the mind of the subject, though it still can't communicate with you. You can't actually see through the subject's eyes, so it's not as good as being there yourself, but you still get a good idea of what's going on. Subjects resist this control, and any subject forced to take actions against its nature receives a new saving throw with a +2 bonus. Obviously self-destructive orders are not carried out. Once control is established, the range at which it can be exercised is unlimited, as long as you and the subject are on the same plane. You need not see the subject to control it. If you don't spend at least 1 round concentrating on the spell each day, the subject receives a new saving throw to throw off the domination.

Protection from evil or a similar spell can prevent you from exercising control or using the telepathic link while the subject is so warded, but such an effect does not automatically dispel it.

**School** necromancy  
**Casting Time** 1 action  
**Components** V, S, F (a gem or crystal worth at least 100 gp)  
**Range** medium (100 + 10 ft./level)  
**Target** one creature  
**Duration** 1 hour/level or until you return to your body  
**Saving Throw** DC 28 Will negates; see text; **Spell Resistance** yes

By casting *magic jar*, you place your soul in a gem or large crystal (known as the *magic jar*), leaving your body lifeless. Then you can attempt to take control of a nearby body, forcing its soul into the *magic jar*. You may move back to the jar (thereby returning the trapped soul to its body) and attempt to possess another body. The spell ends when you send your soul back to your own body, leaving the receptacle empty. To cast the spell, the *magic jar* must be within spell range and you must know where it is, though you do not need line of sight or line of effect to it. When you transfer your soul upon casting, your body is, as near as anyone can tell, dead.

While in the *magic jar*, you can sense and attack any life force within 10 feet per caster level (and on the same plane of existence). You do need line of effect from the jar to the creatures. You cannot determine the exact creature types or positions of these creatures. In a group of life forces, you can sense a difference of 4 or more HD between one creature and another and can determine whether a life force is powered by positive or negative energy. (Undead creatures are powered by negative energy. Only sentient undead creatures have, or are, souls.)

You could choose to take over either a stronger or a weaker creature, but which particular stronger or weaker creature you attempt to possess is determined randomly.

Attempting to possess a body is a full-round action. It is blocked by *protection from evil* or a similar ward. You possess the body and force the creature's soul into the *magic jar* unless the subject succeeds on a Will save. Failure to take over the host leaves your life force in the *magic jar*, and the target automatically succeeds on further saving throws if you attempt to possess its body again.

If you are successful, your life force occupies the host body, and the host's life force is imprisoned in the *magic jar*. You keep your Intelligence, Wisdom, Charisma, level, class, base attack bonus, base save bonuses, alignment, and mental abilities. The body retains its Strength, Dexterity, Constitution, hit points, natural abilities, and automatic abilities. A body with extra limbs does not allow you to make more attacks (or more advantageous two-weapon attacks) than normal. You can't choose to activate the body's extraordinary or supernatural abilities. The creature's spells and spell-like abilities do not stay with the body.

As a standard action, you can shift freely from a host to the *magic jar* if within range, sending the trapped soul back to its body. The spell ends when you shift from the jar to your own body.

If the host body is slain, you return to the *magic jar*, if within range, and the life force of the host departs (it is dead). If the host body is slain beyond the range of the spell, both you and the host die. Any life force with nowhere to go is treated as slain.

If the spell ends while you are in the *magic jar*, you return to your body (or die if your body is out of range or destroyed). If the spell ends while you are in a host, you return to your body (or die, if it is out of range of your current position), and the soul in the *magic jar* returns to its body (or dies if it is out of range). Destroying the receptacle ends the spell, and the spell can be dispelled at either the *magic jar* or the host's location.

### Overland Flight Witch 5

**School** transmutation / air elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** personal  
**Target** you  
**Duration** 1 hour/level  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

This spell functions like a *fly* spell, except you can fly at a speed of 40 feet (30 feet if wearing medium or heavy armor, or if carrying a medium or heavy load) with a bonus on Fly skill checks equal to half your caster level. When using this spell for long-distance movement, you can hustle without taking nonlethal damage (a forced march still requires Constitution checks). This means you can cover 64 miles in an 8-hour period of flight (or 48 miles at a speed of 30 feet).

#### Fly

The subject can fly at a speed of 60 feet (or 40 feet if it wears medium or heavy armor, or if it carries a medium or heavy load). It can ascend at half speed and descend at double speed, and its maneuverability is good. Using a fly spell requires only as much concentration as walking, so the subject can attack or cast spells normally. The subject of a fly spell can charge but not run, and it cannot carry aloft more weight than its maximum load, plus any armor it wears. The subject gains a bonus on Fly skill checks equal to 1/2 your caster level. Should the spell duration expire while the subject is still aloft, the magic fails slowly. The subject floats downward 60 feet per round for 1d6 rounds. If it reaches the ground in that amount of time, it lands safely. If not, it falls the rest of the distance, taking 1d6 points of damage per 10 feet of fall. Since dispelling a spell effectively ends it, the subject also descends safely in this way if the fly spell is dispelled, but not if it is negated by an antimagic field.

### Passwall Witch 5

**School** transmutation / earth elemental  
**Casting Time** 1 action  
**Components** V, S, M (sesame seeds)  
**Range** touch  
**Effect** 5-ft.-by-8-ft. opening, 10 ft. deep plus 5 ft. deep per three additional levels  
**Duration** 1 hour/level (D)  
**Saving Throw** none; **Spell Resistance** no

You create a passage through wooden, plaster, or stone walls, but not through metal or other harder materials. The passage is 10 feet deep plus an additional 5 feet deep per three caster levels above 9th (15 feet at 12th, 20 feet at 15th, and a maximum of 25 feet deep at 18th level). If the wall's thickness is more than the depth of the passage created, then a single passwall simply makes a niche or short tunnel. Several passwall spells can then form a continuing passage to breach very thick walls. When passwall ends, creatures within the passage are ejected out the nearest exit. If someone dispels the passwall or you dismiss it, creatures in the passage are ejected out the far exit, if there is one, or out the sole exit if there is only one.

### Suffocation Witch 5

**School** necromancy / air elemental  
**Casting Time** 1 action  
**Components** V, S, M (a vial containing a bit of the caster's breath)  
**Range** close (25 + 5 ft./2 levels)  
**Target** one living creature  
**Duration** 3 rounds  
**Saving Throw** DC 28 Fortitude partial; **Spell Resistance** yes

This spell extracts the air from the target's lungs, causing swift suffocation. The target can attempt to resist this spell's effects with a Fortitude save - if he succeeds, he is merely staggered for 1 round as he gasps for breath. If the target fails, he immediately begins to suffocate. On the target's next turn, he falls unconscious and is reduced to 0 hit points. One round later, the target drops to -1 hit points and is dying. One round after that, the target dies. Each round, the target can delay that round's effects from occurring by making a successful Fortitude save, but the spell effect continues for 3 rounds, and each time a target fails his Fortitude save, he moves one step further along the track to suffocation. This spell only affects living creatures that must breathe. It is impossible to defeat the effects of this spell by simply holding one's breath - if the victim fails the initial saving throw, the air in his lungs is extracted.

### Telepathic Bond Witch 5

**School** divination / void elemental / wood elemental  
**Casting Time** 1 action  
**Components** V, S, M (two eggshells from two different creatures)  
**Range** close (25 + 5 ft./2 levels)  
**Target** you plus one willing creature per three levels, no two of which can be more than 30 ft. apart  
**Duration** 10 min./level (D)  
**Saving Throw** none; **Spell Resistance** no

You forge a telepathic bond among yourself and a number of willing creatures, each of which must have an Intelligence score of 3 or higher. Each creature included in the link is linked to all the others. The creatures can communicate telepathically through the bond regardless of language. No special power or influence is established as a result of the bond. Once the bond is formed, it works over any distance (although not from one plane to another). If desired, you may leave yourself out of the telepathic bond forged. This decision must be made at the time of casting.

Telepathic bond can be made permanent with a permanency spell, though it only bonds two creatures per casting of permanency.

<b>Teleport</b>	<b>Witch 5</b>	<b>Cone of Cold</b>	<b>Witch 6</b>
<b>School</b> conjuration / void elemental (teleportation) <b>Casting Time</b> 1 action <b>Components</b> V <b>Range</b> personal Touch <b>Target</b> you and touched objects or other touched willing creatures <b>Duration</b> instantaneous <b>Saving Throw</b> none and Will negates (object); <b>Spell Resistance</b> no and yes (object)		<b>School</b> evocation / water elemental [cold] <b>Casting Time</b> 1 action <b>Components</b> V, S, M (a small crystal or glass cone) <b>Range</b> 60 ft. <b>Area</b> cone-shaped burst <b>Duration</b> instantaneous <b>Saving Throw</b> DC 29 Reflex half; <b>Spell Resistance</b> yes	

This spell instantly transports you to a designated destination, which may be as distant as 100 miles per caster level. Interplanar travel is not possible. You can bring along objects as long as their weight doesn't exceed your maximum load. You may also bring one additional willing Medium or smaller creature (carrying gear or objects up to its maximum load) or its equivalent per three caster levels. A Large creature counts as two Medium creatures, a Huge creature counts as four Medium creatures, and so forth. All creatures to be transported must be in contact with one another, and at least one of those creatures must be in contact with you. As with all spells where the range is personal and the target is you, you need not make a saving throw, nor is spell resistance applicable to you. Only objects held or in use (attended) by another person receive saving throws and spell resistance. You must have some clear idea of the location and layout of the destination. The clearer your mental image, the more likely the teleportation works. Areas of strong physical or magical energy may make teleportation more hazardous or even impossible. To see how well the teleportation works, roll d% and consult the table at the end of this spell. Refer to the following information for definitions of the terms on the table.

**Familiarity:** "Very familiar" is a place where you have been very often and where you feel at home. "Studied carefully" is a place you know well, either because you can currently physically see it or you've been there often. "Seen casually" is a place that you have seen more than once but with which you are not very familiar. "Viewed once" is a place that you have seen once, possibly using magic such as scrying. "False destination" is a place that does not truly exist or if you are teleporting to an otherwise familiar location that no longer exists as such or has been so completely altered as to no longer be familiar to you. When traveling to a false destination, roll 1d20+80 to obtain results on the table, rather than rolling d%, since there is no real destination for you to hope to arrive at or even be off target from.

**On Target:** You appear where you want to be.

**Off Target:** You appear safely a random distance away from the destination in a random direction. Distance off target is d% of the distance that was to be traveled. The direction off target is determined randomly.

**Similar Area:** You wind up in an area that's visually or thematically similar to the target area. Generally, you appear in the closest similar place within range. If no such area exists within the spell's range, the spell simply fails instead.

**Mishap:** You and anyone else teleporting with you have gotten "scrambled." You each take 1d10 points of damage, and you reroll on the chart to see where you wind up. For these rerolls, roll 1d20+80. Each time "Mishap" comes up, the characters take more damage and must reroll.

Familiarity - On Target - Off Target - Similar Area - Mishap  
 Very familiar - 01-97 - 98-99 - 100 - -  
 Studied carefully - 01-94 - 95-97 - 98-99 - 100  
 Seen casually - 01-88 - 89-94 - 95-98 - 99-100  
 Viewed once - 01-76 - 77-88 - 89-96 - 97-100  
 False destination - - - - 81-92 - 93-100

Cone of cold creates an area of extreme cold, originating at your hand and extending outward in a cone. It drains heat, dealing 1d6 points of cold damage per caster level (maximum 15d6).

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Dispel Magic, Greater

Witch 6

**School** abjuration / void elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** medium (100 + 10 ft./level)  
**Target** one spellcaster, creature, or object; or a 20-ft.- radius burst  
**Duration** instantaneous  
**Saving Throw** none; **Spell Resistance** no

This spell functions like *dispel magic*, except that it can end more than one spell on a target and it can be used to target multiple creatures.

You choose to use *greater dispel magic* in one of three ways: a targeted dispel, area dispel, or a counterspell:

**Targeted Dispel**: This functions as a targeted *dispel magic*, but it can dispel one spell for every four caster levels you possess, starting with the highest level spells and proceeding to lower level spells.

Additionally, *greater dispel magic* has a chance to dispel any effect that *remove curse* can remove, even if *dispel magic* can't dispel that effect. The DC of this check is equal to the curse's DC.

**Area Dispel**: When *greater dispel magic* is used in this way, the spell affects everything within a 20-foot-radius burst. Roll one dispel check and apply that check to each creature in the area, as if targeted by *dispel magic*. For each object within the area that is the target of one or more spells, apply the dispel check as with creatures. Magic items are not affected by an area dispel.

For each ongoing area or effect spell whose point of origin is within the area of the *greater dispel magic* spell, apply the dispel check to dispel the spell. For each ongoing spell whose area overlaps that of the *greater dispel magic* spell, apply the dispel check to end the effect, but only within the overlapping area.

If an object or creature that is the effect of an ongoing spell (such as a monster summoned by *summon monster*) is in the area, apply the dispel check to end the spell that conjured that object or creature (returning it whence it came) in addition to attempting to dispel one spell targeting the creature or object.

You may choose to automatically succeed on dispel checks against any spell that you have cast.

**Counterspell**: This functions as *dispel magic*, but you receive a +4 bonus on your dispel check to counter the other spellcaster's spell.

#### Dispel Magic

You can use dispel magic to end one ongoing spell that has been cast on a creature or object, to temporarily suppress the magical abilities of a magic item, or to counter another spellcaster's spell. A dispelled spell ends as if its duration had expired. Some spells, as detailed in their descriptions, can't be defeated by dispel magic. Dispel magic can dispel (but not counter) spell-like effects just as it does spells. The effect of a spell with an instantaneous duration can't be dispelled, because the magical effect is already over before the dispel magic can take effect. You choose to use dispel magic in one of two ways: a targeted dispel or a counterspell.

**Targeted Dispel**: One object, creature, or spell is the target of the dispel magic spell. You make one dispel check (1d20 + your caster level) and compare that to the spell with highest caster level (DC = 11 + the spell's caster level). If successful, that spell ends. If not, compare the same result to the spell with the next highest caster level. Repeat this process until you have dispelled one spell affecting the target, or you have failed to dispel every spell. For example, a 7th-level caster casts dispel magic, targeting a creature affected by stonesskin (caster level 12th) and fly (caster level 6th). The caster level check results in a 19. This check is not high enough to end the stonesskin (which would have required a 23 or higher), but it is high enough to end the fly (which only required a 17). Had the dispel check resulted in a 23 or higher, the stonesskin would have been dispelled, leaving the fly intact. Had the dispel check been a 16 or less, no

### Flesh to Stone

Witch 6

**School** transmutation / earth elemental  
**Casting Time** 1 action  
**Components** V, S, M (lime, water, and earth)  
**Range** medium (100 + 10 ft./level)  
**Target** one creature  
**Duration** instantaneous  
**Saving Throw** DC 29 Fortitude negates; **Spell Resistance** yes

The subject, along with all its carried gear, turns into a mindless, inert statue. If the statue resulting from this spell is broken or damaged, the subject (if ever returned to its original state) has similar damage or deformities. The creature is not dead, but it does not seem to be alive either when viewed with spells such as deathwatch. Only creatures made of flesh are affected by this spell.

### Hellfire Ray

Witch 6

**School** evocation [evil]  
**Casting Time** 1 action  
**Components** V, S, F/DF (any unholy symbol or heretical tome)  
**Range** close (25 ft. + 5 ft./2 levels)  
**Effect** ray  
**Duration** instantaneous  
**Saving Throw** none (see text); **Spell Resistance** yes

A blast of hellfire blazes from your hands. You can fire one ray, plus one additional ray for every 4 caster levels beyond 11th (to a maximum of three rays at 19th level). Each ray requires a ranged touch attack to hit and deals 1d6 points of damage per caster level (maximum 15d6). Half the damage is fire damage, but the other half results directly from unholy power and is therefore not subject to being reduced by fire resistance. The rays can be fired at the same target or at different targets, but all rays must be fired simultaneously and aimed at targets within 30 feet of each other.

Any creature killed by this spell must make a Will saving throw; failure means the creature's soul is damned to Hell as a burst of brimstone appears around its corpse. A non-evil spellcaster attempting to bring the character back from the dead must make a caster level check (DC equal to 10 plus the slain creature's level) to succeed; failure means the spellcaster cannot try again for 1 day. Evil spellcasters can raise the slain character normally, without a check. A raised character's soul is no longer automatically consigned to Hell.

### Heroism, Greater

Witch 6

**School** enchantment (compulsion) [mind-affecting]  
**Casting Time** 1 action  
**Components** V, S  
**Range** touch  
**Target** creature touched  
**Duration** 1 min./level  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

This spell functions like *heroism*, except the creature gains a +4 morale bonus on attack rolls, saves, and skill checks, immunity to fear effects, and temporary hit points equal to your caster level (maximum 20).

#### Heroism

This spell imbues a single creature with great bravery and morale in battle. The target gains a +2 morale bonus on attack rolls, saves, and skill checks.

### Ice Crystal Teleport

Witch 6

**School** conjuration / water elemental (teleportation) [cold]  
**Casting Time** 1 action  
**Components** V  
**Range** long (400 + 40 ft./level)  
**Target** one creature  
**Duration** 1d4 rounds and instantaneous  
**Saving Throw** DC 29 Will negates; **Spell Resistance** yes

This spell functions as *teleport*, except you use it to teleport yourself or one other creature to a safe location you specify (the target can bring along objects as long as their weight doesn't exceed the target's heavy load). You can only send the target to a location with which you are very familiar. The target is first trapped in ice (hardness 0, 3 hit points per inch of thickness, 1 inch thick per caster level) for 1d4 rounds, during which time it is paralyzed, aware but unable to take any physical actions, and begins to fade away as the teleportation aspect takes effect. At the end of the 1d4 rounds, the target teleports to the specified location, and the ice's hit points drop to 0 and it quickly melts away. If the ice is destroyed before the target teleports, the spell ends and the teleport doesn't occur.

#### Teleport

This spell instantly transports you to a designated destination, which may be as distant as 100 miles per caster level. Interplanar travel is not possible. You can bring along objects as long as their weight doesn't exceed your maximum load. You may also bring one additional willing Medium or smaller creature (carrying gear or objects up to its maximum load) or its equivalent per three caster levels. A Large creature counts as two Medium creatures, a Huge creature counts as four Medium creatures, and so forth. All creatures to be transported must be in contact with one another, and at least one of those creatures must be in contact with you. As with all spells where the range is personal and the target is you, you need not make a saving throw, nor is spell resistance applicable to you. Only objects held or in use (attended) by another person receive saving throws and spell resistance. You must have some clear idea of the location and layout of the destination. The clearer your mental image, the more likely the teleportation works. Areas of strong physical or magical energy may make teleportation more hazardous or even impossible. To see how well the teleportation works, roll d% and consult the table at the end of this spell. Refer to the following information for definitions of the terms on the table.

**Familiarity:** "Very familiar" is a place where you have been very often and where you feel at home. "Studied carefully" is a place you know well, either because you can currently physically see it or you've been there often. "Seen casually" is a place that you have seen more than once but with which you are not very familiar. "Viewed once" is a place that you have seen once, possibly using magic such as scrying. "False destination" is a place that does not truly exist or if you are teleporting to an otherwise familiar location that no longer exists as such or has been so completely altered as to no longer be familiar to you. When traveling to a false destination, roll 1d20+80 to obtain results on the table, rather than rolling d%, since there is no real destination for you to hope to arrive at or even be off target from.

**On Target:** You appear where you want to be.

**Off Target:** You appear safely a random distance away from the destination in a random direction. Distance off target is d% of the distance that was to be traveled. The direction off target is determined randomly.

**Mishap:** You and anyone else teleporting with you have gotten "scrambled." You each take 1d10 points of damage, and you reroll on the chart to see where you wind up. For these rerolls, roll 1d20+80. Each time "Mishap" comes up, the characters take more damage and must reroll.

### Programmed Image

Witch 6

**School** illusion (figment)  
**Casting Time** 1 action  
**Components** V, S, M (fleece and jade dust worth 25 gp)  
**Range** long (400 + 40 ft./level)  
**Effect** visual figment that cannot extend beyond a 20-ft. cube + one 10-ft. cube/level (S)  
**Duration** permanent until triggered, then 1 round/level  
**Saving Throw** DC 29 Will disbelief (if interacted with); **Spell Resistance** no

This spell functions like *silent image*, except that this spell's figment activates when a specific condition occurs. The figment includes visual, auditory, olfactory, and thermal elements, including intelligible speech. You set the triggering condition (which may be a special word) when casting the spell. The event that triggers the illusion can be as general or as specific and detailed as desired but must be based on an audible, tactile, olfactory, or visual trigger. The trigger cannot be based on some quality not normally obvious to the senses, such as alignment. See magic mouth for more details about such triggers.

#### Silent Image

This spell creates the visual illusion of an object, creature, or force, as visualized by you. The illusion does not create sound, smell, texture, or temperature. You can move the image within the limits of the size of the effect.

### Stone to Flesh

Witch 6

**School** transmutation / earth elemental  
**Casting Time** 1 action  
**Components** V, S, M (a drop of blood mixed with earth)  
**Range** medium (100 + 10 ft./level)  
**Target** one petrified creature or a cylinder of stone from 1 ft. to 3 ft. in diameter and up to 10 ft. long  
**Duration** instantaneous  
**Saving Throw** DC 29 Fortitude negates (object); see text; **Spell Resistance** yes

This spell restores a petrified creature to its normal state, restoring life and goods. The creature must make a DC 15 Fortitude save to survive the process. Any petrified creature, regardless of size, can be restored. The spell also can convert a mass of stone into a fleshy substance. Such flesh is inert and lacking a vital life force unless a life force or magical energy is available. For example, this spell would turn an animated stone statue into an animated flesh statue, but an ordinary statue would become a mass of inert flesh in the shape of the statue. You can affect an object that fits within a cylinder from 1 foot to 3 feet in diameter and up to 10 feet long or a cylinder of up to those dimensions in a larger mass of stone.

### Summon Flight of Eagles

Witch 6

**School** conjuration (summoning)  
**Casting Time** 1 round  
**Components** V, S, F (a gold feather worth 100 gp)  
**Range** close (25 + 5 ft./2 levels)  
**Effect** 1d4+1 summoned creatures  
**Duration** 1 minute/level  
**Saving Throw** none; **Spell Resistance** no

You summon 1d4+1 giant eagles to serve as mounts for creatures you designate. The summoned birds do not fight independently, but they willingly carry their riders into battle as if trained for combat.

**Components** V, S, F/DF

**Range** close (25 + 5 ft./2 levels)

**Effect** one summoned creature

**Duration** 1 round/level (D)

**Saving Throw** none; **Spell Resistance** no

This spell functions like *summon monster I*, except you can summon one creature from the 6th-level list, 1d3 creatures of the same kind from the 5th-level list, or 1d4+1 creatures of the same kind from a lower-level list.

**Summon Monster Tables**

**6th Level** : Dire bear\*, Dire tiger\*, Elasmosaurus (dinosaur)\*, Elemental (Huge) [Elemental subtype], Elephant\*, Erinyes (devil) [Evil, Lawful subtypes], Giant octopus\*, Invisible stalker [Air subtype], Lillend azata [Chaotic, Good subtypes], Shadow demon [Chaotic, Evil subtypes], Succubus (demon) [Chaotic, Evil subtypes], Triceratops (dinosaur)\*

\* This creature is summoned with the celestial template if you are good, or the fiendish template if you are evil; you may choose either if you are neutral.

**Summon Monster I**

This spell summons an extraplanar creature (typically an outsider, elemental, or magical beast native to another plane). It appears where you designate and acts immediately, on your turn. It attacks your opponents to the best of its ability. If you can communicate with the creature, you can direct it not to attack, to attack particular enemies, or to perform other actions. The spell conjures one of the creatures from the 1st Level list on Table 10-1. You choose which kind of creature to summon, and you can choose a different one each time you cast the spell. A summoned monster cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities. Creatures cannot be summoned into an environment that cannot support them. Creatures summoned using this spell cannot use spells or spell-like abilities that duplicate spells with expensive material components (such as wish). When you use a summoning spell to summon a creature with an alignment or elemental subtype, it is a spell of that type. Creatures on Table 10-1 marked with an "\*" are summoned with the celestial template, if you are good, and the fiendish template, if you are evil. If you are neutral, you may choose which template to apply to the creature. Creatures marked with an "\*" always have an alignment that matches yours, regardless of their usual alignment. Summoning these creatures makes the summoning spell's type match your alignment.

**Summon Monster Tables**

**1st Level** : Dire rat\*, Dog\*, Dolphin\*, Eagle\*, Fire beetle\*, Frog, poison\*, Pony (horse)\*, Viper (snake)\*

\* This creature is summoned with the celestial template if you are good, or the fiendish template if you are evil; you may choose either if you are neutral.

**School** transmutation

**Casting Time** 1 action

**Components** V, S, M/DF (a crushed insect hive)

**Range** personal

**Target** you

**Duration** see text

You convert all of your soft tissue into swarms of insects or other creatures and send them off to do your bidding, leaving nothing but your bones and gear behind. These swarms have all their normal qualities and abilities but also bear a tiny portion of your consciousness that allows you to perceive what they do and to control their actions. While in this form, you cannot use any of your own abilities or take any actions other than controlling the swarms.

Each time you cast this spell you get a total allotment of levels equal to your caster level and any swarm you choose to create costs one or more of those levels. You can "spend" your allotment of levels to create any combination of swarms so long as their total does not exceed your caster level.

Number of Levels - Swarm Type(s)

2 caster levels - Spider swarm (Pathfinder Bestiary page 258)

4 caster levels - Rat swarm (Bestiary 232)

6 caster levels - Crab swarm, wasp swarm (Bestiary 50, 275)

8 caster levels - Centipede swarm, leech swarm (Bestiary 43, 187)

10 caster levels - Army ant swarm (Bestiary 16)

Once you create these swarms they remain in existence until destroyed or you order them to return to your body. When all swarms have returned to your body or are destroyed, your flesh wraps itself back around your bones and you regain the ability to act normally. If your bones are not where you left them you must first locate them in order to regain access to your body. You always know if your bones are destroyed and your consciousness remains in control of the swarms until they too are destroyed (and your die). If you can use the swarms to get help and arrange for someone to repair your bones (using anything that would normally restore you to life), at which point you can return the swarms to your body.

This spell functions like *symbol of death*, except that all creatures within the radius of a symbol of persuasion instead become charmed by the caster (as the charm monster spell) for 1 hour per caster level. Unlike *symbol of death*, symbol of persuasion has no hit point limit; once triggered, a symbol of persuasion simply remains active for 10 minutes per caster level.

Note: Magic traps such as symbol of persuasion are hard to detect and disable. A rogue (only) can use the Perception skill to find a symbol of persuasion and Disable Device to thwart it. The DC in each case is 25 + spell level, or 31 for symbol of persuasion.

**Symbol of Death**

This spell allows you to scribe a potent rune of power upon a surface. When triggered, a *symbol of death* kills one or more creatures within 60 feet of the symbol (treat as a burst) whose combined total current hit points do not exceed 150. The *symbol of death* affects the closest creatures first, skipping creatures with too many hit points to affect. Once triggered, the *symbol* becomes active and glows, lasting for 10 minutes per caster level or until it has affected 150 hit points' worth of creatures, whichever comes first. A creature that enters the area while the *symbol of death* is active is subject to its effect, whether or not that creature was in the area when it was triggered. A creature need save against the *symbol* only once as long as it remains within the area, though if it leaves the area and returns while the *symbol* is still active, it must save again.

Until it is triggered, the *symbol of death* is inactive (though visible and legible at a distance of 60 feet). To be effective, a *symbol of death* must always be placed in plain sight and in a prominent location. Covering or hiding the rune renders the *symbol of death* ineffective, unless a creature removes the covering, in which case the *symbol of death* works normally.

As a default, a *symbol of death* is triggered whenever a creature does one or more of the following, as you select: looks at the rune; reads the rune; touches the rune; passes over the rune; or passes through a portal bearing the rune. Regardless of the trigger method or methods chosen, a creature more than 60 feet from a *symbol of death* can't trigger it (even if it meets one or more of the triggering conditions, such as reading the rune). Once the spell is cast, a *symbol of death*'s triggering conditions cannot be changed.

In this case, "reading" the rune means any attempt to study it, identify it, or fathom its meaning. Throwing a cover over a *symbol of death* to render it inoperative triggers it if the symbol reacts to touch. You can't use a *symbol of death* offensively; for instance, a touch-triggered *symbol of death* remains untriggered if an item bearing the *symbol of death* is used to touch a creature. Likewise, a *symbol of death* cannot be placed on a weapon and set to activate when the weapon strikes a foe.

You can also set special triggering limitations of your own. These can be as simple or elaborate as you desire. Special conditions for triggering a *symbol of death* can be based on a creature's name, identity, or alignment, but otherwise must be based on observable actions or qualities. Intangibles such as level, class, HD, and hit points don't qualify.

When scribing a *symbol of death*, you can specify a password or phrase that prevents a creature using it from triggering the symbol's effect. Anyone using the password remains immune to that particular rune's effects so long as the creature remains within 60 feet of the rune. If the creature leaves the radius and returns later, it must use the password again.

Like shield other, unwilling shield creates a mystic connection between you and the target, but unlike shield other, the target shares the wounds that you receive. In addition, the link draws upon the target's life force to supplement your own defenses. You gain a +1 luck bonus to AC and on saving throws. You take only half damage from all wounds and attacks (including those dealt by special abilities) that deal hit point damage. The amount of damage not taken by you is taken by the target. Forms of harm that do not involve hit points, such as charm effects, ability damage, level draining, and death effects are not affected. If you take a reduction in hit points from a lowered Constitution score, the reduction is not split with the target because it is not hit point damage. When the spell ends, subsequent damage is no longer divided between you and the subject, but damage already split is not assigned to you. If you and the target of the spell move out of range of each other, the spell remains active, but damage is no longer shared until you are once again within range of each other.

You place a curse on the subject. Choose one of the following.

- -12 penalty to an ability score, or -6 penalty to two ability scores (to a minimum ability score of 1).
- -8 penalty on attack rolls, saves, ability checks, and skill checks.
- Each turn, the target has a 25% chance to act normally; otherwise, it takes no actions.
- Bestow one of the curses or variants in this article.
- Bestow curse of the ages or unluck ( *Core Rulebook* 557).

If a specific affliction is bestowed, the save DC of the spell replaces the usual save DC of the affliction. You can also invent your own curse, but it should be no more powerful than those described above.

The curse bestowed by this spell cannot be dispelled, but it can be removed with a *break enchantment*, *limited wish*, *miracle*, or *wish* spell. It cannot be removed with *remove curse* or suppressed with *abeyance*. The DC to remove the curse with *break enchantment* increases by 5.

<b>Chain Lightning</b>	<b>Witch 7</b>	<b>Fairy Ring Retreat</b>	<b>Witch 7</b>
<p><b>School</b> evocation / air elemental / metal elemental [electricity]  <b>Casting Time</b> 1 action  <b>Components</b> V, S, F (a bit of fur; a piece of amber, glass, or a crystal rod; plus one silver pin per caster level)  <b>Range</b> long (400 + 40 ft./level)  <b>Target</b> one primary target, plus one secondary target/level (each of which must be within 30 ft. of the primary target)  <b>Duration</b> instantaneous  <b>Saving Throw</b> DC 30 Reflex half; <b>Spell Resistance</b> yes</p>		<p><b>School</b> conjuration (creation)  <b>Casting Time</b> 1 action  <b>Components</b> V, S, DF  <b>Range</b> close (25 + 5 ft./2 levels)  <b>Effect</b> extradimensional meadow, up to three 10-ft. cubes/ level (S)  <b>Duration</b> 2 hours/level (D)  <b>Saving Throw</b> none; <b>Spell Resistance</b> no</p>	

This spell creates an electrical discharge that begins as a single stroke commencing from your fingertips. Unlike lightning bolt, chain lightning strikes one object or creature initially, then arcs to other targets. The bolt deals 1d6 points of electricity damage per caster level (maximum 20d6) to the primary target. After it strikes, lightning can arc to a number of secondary targets equal to your caster level (maximum 20). The secondary bolts each strike one target and deal as much damage as the primary bolt. Each target can attempt a Reflex saving throw for half damage. The Reflex DC to halve the damage of the secondary bolts is 2 lower than the DC to halve the damage of the primary bolt. You choose secondary targets as you like, but they must all be within 30 feet of the primary target, and no target can be struck more than once. You can choose to affect fewer secondary targets than the maximum.

You conjure up an extradimensional meadow that can be accessed from a single entrance on the plane from which the spell was cast. The entry point looks like a circle of toadstools enclosing a 10-foot square. Only those you designate can enter the meadow before you do, and the portal is shut and made invisible behind you when you enter. You can open it again from your own side at will. Once a visitor has passed through the entry point, they find themselves in an idyllic twilight meadow surrounded by an impassable grove of fruit and nut trees. The atmosphere is clean, fresh, and warm.

You can configure the meadow into any shape you desire, to the limit of the spell's effect. The place is comfortable and temperate. The trees can provide enough food to sustain 4 people per caster level for a day. A staff of near-transparent animal or feylike servants (as many as two per caster level) wait upon all who enter. The servants function as *unseen servant* spells except that they are visible and can go anywhere in the meadow.

Since the place can be entered only through its special portal, outside conditions do not affect the meadow, nor do conditions inside it pass to the plane beyond.

### Unseen Servant

An unseen servant is an invisible, mindless, shapeless force that performs simple tasks at your command. It can run and fetch things, open unstuck doors, and hold chairs, as well as clean and mend. The servant can perform only one activity at a time, but it repeats the same activity over and over again if told to do so as long as you remain within range. It can open only normal doors, drawers, lids, and the like. It has an effective Strength score of 2 (so it can lift 20 pounds or drag 100 pounds). It can trigger traps and such, but it can exert only 20 pounds of force, which is not enough to activate certain pressure plates and other devices. It can't perform any task that requires a skill check with a DC higher than 10 or that requires a check using a skill that can't be used untrained. This servant cannot fly, climb, or even swim (though it can walk on water). Its base speed is 15 feet. The servant cannot attack in any way; it is never allowed an attack roll. It cannot be killed, but it dissipates if it takes 6 points of damage from area attacks. (It gets no saves against attacks.) If you attempt to send it beyond the spell's range (measured from your current position), the servant ceases to exist.

This spell functions like *hold person*, except as noted above.

### Hold Person

The subject becomes paralyzed and freezes in place. It is aware and breathes normally but cannot take any actions, even speech. Each round on its turn, the subject may attempt a new saving throw to end the effect. This is a full-round action that does not provoke attacks of opportunity. A winged creature who is paralyzed cannot flap its wings and falls. A swimmer can't swim and may drown.

## Oops, Witch (Scarred Witch Doctor) 17 – Spells in Spellbook

### Invisibility, Mass Witch 7

**School** illusion (glamer)  
**Casting Time** 1 action  
**Components** V, S, M/DF (an eyelash encased in gum arabic)  
**Range** personal or touch  
**Target** any number of creatures, no two of which can be more than 180 ft. apart  
**Duration** 1 min./level (D)  
**Saving Throw** Will negates (harmless) or Will negates (harmless, object); **Spell Resistance** yes (harmless) or yes (harmless, object)

This spell functions like *invisibility*, except that the effect moves with the group and is broken when anyone in the group attacks. Individuals in the group cannot see each other. The spell is broken for any individual who moves more than 180 feet from the nearest member of the group. If only two individuals are affected, the one moving away from the other one loses its invisibility. If both are moving away from each other, they both become visible when the distance between them exceeds 180 feet.

#### Invisibility

The creature or object touched becomes invisible. If the recipient is a creature carrying gear, that vanishes, too. If you cast the spell on someone else, neither you nor your allies can see the subject, unless you can normally see invisible things or you employ magic to do so.

Items dropped or put down by an invisible creature become visible; items picked up disappear if tucked into the clothing or pouches worn by the creature. Light, however, never becomes invisible, although a source of light can become so (thus, the effect is that of a light with no visible source). Any part of an item that the subject carries but that extends more than 10 feet from it becomes visible.

Of course, the subject is not magically silenced, and certain other conditions can render the recipient detectable (such as swimming in water or stepping in a puddle). If a check is required, a stationary invisible creature has a +40 bonus on its Stealth checks. This bonus is reduced to +20 if the creature is moving. The spell ends if the subject attacks any creature. For purposes of this spell, an attack includes any spell targeting a foe or whose area or effect includes a foe. Exactly who is a foe depends on the invisible character's perceptions. Actions directed at unattended objects do not break the spell. Causing harm indirectly is not an attack. Thus, an invisible being can open doors, talk, eat, climb stairs, summon monsters and have them attack, cut the ropes holding a rope bridge while enemies are on the bridge, remotely trigger traps, open a portcullis to release attack dogs, and so forth. If the subject attacks directly, however, it immediately becomes visible along with all its gear. Spells such as *bless* that specifically affect allies but not foes are not attacks for this purpose, even when they include foes in their area.

*Invisibility* can be made permanent (on objects only) with a *permanency* spell.

### Poison Breath Witch 7

**School** evocation [poison]  
**Casting Time** 1 action  
**Components** V, S, M/DF (a spider's mandible)  
**Range** 15 ft.  
**Area** cone-shaped burst  
**Duration** instantaneous  
**Saving Throw** DC 30 Fortitude negates; **Spell Resistance** yes

You expel a cone-shaped burst of toxic mist from your mouth, subjecting everyone caught in the area to a deadly poison, as per the *poison* spell.

#### Poison

Calling upon the venomous powers of natural predators, you infect the subject with a horrible poison by making a successful melee touch attack. This poison deals 1d3 Constitution damage per round for 6 rounds. Poisoned creatures can make a Fortitude save each round to negate the damage and end the affliction.

This spell functions like *summon monster I*, except that you can summon one creature from the 7th-level list, 1d3 creatures of the same kind from the 6th-level list, or 1d4+1 creatures of the same kind from a lower-level list.

**Summon Monster Tables**

\* This creature is summoned with the celestial template if you are good, or the fiendish template if you are evil; you may choose either if you are neutral.

**Summon Monster I**

This spell summons an extraplanar creature (typically an outsider, elemental, or magical beast native to another plane). It appears where you designate and acts immediately, on your turn. It attacks your opponents to the best of its ability. If you can communicate with the creature, you can direct it not to attack, to attack particular enemies, or to perform other actions. The spell conjures one of the creatures from the 1st Level list on Table 10-1. You choose which kind of creature to summon, and you can choose a different one each time you cast the spell. A summoned monster cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities. Creatures cannot be summoned into an environment that cannot support them. Creatures summoned using this spell cannot use spells or spell-like abilities that duplicate spells with expensive material components (such as wish). When you use a summoning spell to summon a creature with an alignment or elemental subtype, it is a spell of that type. Creatures on Table 10-1 marked with an "\*" are summoned with the celestial template, if you are good, and the fiendish template, if you are evil. If you are neutral, you may choose which template to apply to the creature. Creatures marked with an "\*" always have an alignment that matches yours, regardless of their usual alignment. Summoning these creatures makes the summoning spell's type match your alignment.

**Summon Monster Tables**

**1st Level** : Dire rat\*, Dog\*, Dolphin\*, Eagle\*, Fire beetle\*, Frog, poison\*, Pony (horse)\*, Viper (snake)\*

\* This creature is summoned with the celestial template if you are good, or the fiendish template if you are evil; you may choose either if you are neutral.

**Teleport, Greater** **Witch 7**

**School** conjuration / void elemental (teleportation)  
**Casting Time** 1 action  
**Components** V  
**Range** personal Touch  
**Target** you and touched objects or other touched willing creatures  
**Duration** instantaneous  
**Saving Throw** none and Will negates (object); **Spell Resistance** no and yes (object)

This spell functions like *teleport*, except that there is no range limit and there is no chance you arrive off target. In addition, you need not have seen the destination, but in that case you must have at least a reliable description of the place to which you are teleporting. If you attempt to teleport with insufficient information (or with misleading information), you disappear and simply reappear in your original location. Interplanar travel is not possible.

**Teleport**

This spell instantly transports you to a designated destination, which may be as distant as 100 miles per caster level. Interplanar travel is not possible. You can bring along objects as long as their weight doesn't exceed your maximum load. You may also bring one additional willing Medium or smaller creature (carrying gear or objects up to its maximum load) or its equivalent per three caster levels. A Large creature counts as two Medium creatures, a Huge creature counts as four Medium creatures, and so forth. All creatures to be transported must be in contact with one another, and at least one of those creatures must be in contact with you. As with all spells where the range is personal and the target is you, you need not make a saving throw, nor is spell resistance applicable to you. Only objects held or in use (attended) by another person receive saving throws and spell resistance. You must have some clear idea of the location and layout of the destination. The clearer your mental image, the more likely the teleportation works. Areas of strong physical or magical energy may make teleportation more hazardous or even impossible. To see how well the teleportation works, roll d% and consult the table at the end of this spell. Refer to the following information for definitions of the terms on the table.

**Familiarity:** "Very familiar" is a place where you have been very often and where you feel at home. "Studied carefully" is a place you know well, either because you can currently physically see it or you've been there often. "Seen casually" is a place that you have seen more than once but with which you are not very familiar. "Viewed once" is a place that you have seen once, possibly using magic such as scrying. "False destination" is a place that does not truly exist or if you are teleporting to an otherwise familiar location that no longer exists as such or has been so completely altered as to no longer be familiar to you. When traveling to a false destination, roll 1d20+80 to obtain results on the table, rather than rolling d%, since there is no real destination for you to hope to arrive at or even be off target from.

**On Target:** You appear where you want to be.

**Off Target:** You appear safely a random distance away from the destination in a random direction. Distance off target is d% of the distance that was to be traveled. The direction off target is determined randomly.

**Similar Area:** You wind up in an area that's visually or thematically similar to the target area. Generally, you appear in the closest similar place within range. If no such area exists within the spell's range, the spell simply fails instead.

**Mishap:** You and anyone else teleporting with you have gotten "scrambled." You each take 1d10 points of damage, and you reroll on the chart to see where you wind up. For these rerolls, roll 1d20+80. Each time "Mishap" comes up, the characters take more damage and must reroll.

**Familiarity - On Target - Off Target - Similar Area - Mishap**  
 Very familiar - 01-97 - 98-99 - 100 - -  
 Studied carefully - 01-94 - 95-97 - 98-99 - 100  
 Seen casually - 01-88 - 89-94 - 95-98 - 99-100

**Destruction** **Witch 8**

**School** necromancy [death]  
**Casting Time** 1 action  
**Components** V, S, F (holy or unholy symbol worth 500 gp)  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature  
**Duration** instantaneous  
**Saving Throw** DC 31 Fortitude partial; **Spell Resistance** yes

This spell instantly delivers 10 points of damage per caster level. If the spell slays the target, it consumes the remains utterly in holy (or unholy) fire (but not its equipment or possessions). If the target's Fortitude saving throw succeeds, it instead takes 10d6 points of damage. The only way to restore life to a character who has failed to save against this spell (and was slain) is to use true resurrection, a carefully worded wish spell followed by resurrection, or miracle.

**Horrid Wilting** **Witch 8**

**School** necromancy / water elemental  
**Casting Time** 1 action  
**Components** V, S, M/DF (a bit of sponge)  
**Range** long (400 + 40 ft./level)  
**Target** living creatures, no two of which can be more than 60 ft. apart  
**Duration** instantaneous  
**Saving Throw** DC 31 Fortitude half; **Spell Resistance** yes

This spell evaporates moisture from the body of each subject living creature, causing flesh to wither and crack and crumble to dust. This deals 1d6 points of damage per caster level (maximum 20d6). This spell is especially devastating to water elementals and plant creatures, which instead take 1d8 points of damage per caster level (maximum 20d8).

**Mind Blank** **Witch 8**

**School** abjuration / void elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** one creature  
**Duration** 24 hours  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

The subject is protected from all devices and spells that gather information about the target through divination magic (such as *detect evil*, *locate creature*, *scry*, and *see invisible*). This spell also grants a +8 resistance bonus on saving throws against all mind-affecting spells and effects. *Mind blank* even foils *limited wish*, *miracle*, and *wish* spells when they are used in such a way as to gain information about the target. In the case of scrying that scans an area the creature is in, such as *arcane eye*, the spell works but the creature simply isn't detected. Scrying attempts that are targeted specifically at the subject do not work at all.

**Moment of Prescience** **Witch 8**

**School** divination / void elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** personal  
**Target** you  
**Duration** 1 hour/level or until discharged

This spell grants you a sixth sense. Once during the spell's duration, you may choose to use its effect. This spell grants you an insight bonus equal to your caster level (maximum +25) on any single attack roll, combat maneuver check, opposed ability or skill check, or saving throw. Alternatively, you can apply the insight bonus to your AC against a single attack (even if flat-footed). Activating the effect doesn't take an action; you can even activate it on another character's turn. You must choose to use the moment of prescience before you make the roll it is to modify. Once used, the spell ends. You can't have more than one moment of prescience active on you at the same time.

### Nine Lives

Witch 8

#### Racial Spell for Catfolk

**School** abjuration

**Casting Time** 1 action

**Components** V, S, M/DF (a cat's whisker)

**Range** touch

**Target** one creature touched

**Duration** 1 hour/level

**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

Despite its name, this powerful ward does not grant the target multiple lives, but rather gives the target the ability to get out of trouble and relieves harmful effects and conditions. For the spell's duration, the target can use any of the following abilities as an immediate action, but only up to a total of nine times, at which point the spell ends.

*Cat's Luck:* The target can use this ability when it fails a saving throw. The target can reroll the failed saving throw, but must take the new result even if it is worse.

*Fortitude:* The target uses this ability when a critical hit or sneak attack is scored against it. The critical hit or sneak attack is negated and the damage is instead rolled normally.

*Rejuvenate:* The target uses this ability when it is reduced to 0 or fewer hit points. The target is instantly healed 3d6 points of damage. If enough hit points are regained to bring the target to positive hit points, it does not fall unconscious. If it is not enough to leave the target with positive hit points, the target automatically stabilizes. Both of these effects work even if the damage was originally enough to kill the target.

*Shake Off:* The target uses this ability when it is under the effects of any of the following conditions: blinded, confused, cowering, dazed, dazzled, entangled, exhausted, fatigued, frightened, nauseated, panicked, shaken, sickened, or staggered. Using this ability ends one of those conditions.

*Shimmy Out:* The target uses this ability when it is grappled or pinned. The target automatically escapes the grapple as if it had succeeded at an Escape Artist check to escape the grapple.

*Stay Up:* The target uses this ability when it is tripped or otherwise knocked prone. The target steadies itself and stays upright.

### Scintillating Pattern

Witch 8

**School** illusion (pattern) [mind-affecting]

**Casting Time** 1 action

**Components** V, S, M (a crystal prism)

**Range** close (25 + 5 ft./2 levels)

**Effect** colorful lights in a 20-ft.-radius spread

**Duration** concentration + 2 rounds

**Saving Throw** none; **Spell Resistance** yes

A twisting pattern of coruscating colors weaves through the air, affecting creatures within. The spell affects a total number of HD of creatures equal to your caster level (maximum 20). Creatures with the fewest HD are affected first, and among creatures with equal HD, those who are closest to the spell's point of origin are affected first. HD that are not sufficient to affect a creature are wasted. The spell affects each subject according to its HD.

6 or less: Unconscious for 1d4 rounds, then stunned for 1d4 rounds, and then confused for 1d4 rounds. (Treat an unconscious result as stunned for nonliving creatures.)

7 to 12: Stunned for 1d4 rounds, then confused for an additional 1d4 rounds.

13 or more: Confused for 1d4 rounds. Sightless creatures are not affected by scintillating pattern.

### Stormbolts

Witch 8

**School** evocation / air elemental / metal elemental [electricity]

**Casting Time** 1 action

**Components** V, S, M/DF (a copper rod)

**Range** 30 ft.

**Area** a 30-ft.-radius spread, centered on you

**Duration** instantaneous

**Saving Throw** DC 31 Fortitude partial; **Spell Resistance** yes

When you cast this spell, lightning spills forth from your body in all directions. The bolts do not harm natural vegetation or creatures in the area you wish to exclude from damage. Any other creatures within the area take 1d8 points of electricity damage per caster level (maximum 20d8) and are stunned for 1 round. A successful saving throw halves the damage and negates the stun effect.

**Appears in :** Advanced Player's Guide

**Dominate Monster**

**Witch 9**

**School** enchantment (compulsion) [mind-affecting]

**Casting Time** 1 round

**Components** V, S

**Range** close (25 + 5 ft./2 levels)

**Target** one creature

**Duration** 1 day/level

**Saving Throw** DC 32 Will negates; **Spell Resistance** yes

This spell functions like *dominate person*, except that the spell is not restricted by creature type.

**Dominate Person**

You can control the actions of any humanoid creature through a telepathic link that you establish with the subject's mind. If you and the subject have a common language, you can generally force the subject to perform as you desire, within the limits of its abilities. If no common language exists, you can communicate only basic commands, such as "Come here," "Go there," "Fight," and "Stand still." You know what the subject is experiencing, but you do not receive direct sensory input from it, nor can it communicate with you telepathically. Once you have given a dominated creature a command, it continues to attempt to carry out that command to the exclusion of all other activities except those necessary for day-to-day survival (such as sleeping, eating, and so forth). Because of this limited range of activity, a Sense Motive check against DC 15 (rather than DC 25) can determine that the subject's behavior is being influenced by an enchantment effect (see the Sense Motive skill description). Changing your orders or giving a dominated creature a new command is a move action. By concentrating fully on the spell (a standard action), you can receive full sensory input as interpreted by the mind of the subject, though it still can't communicate with you. You can't actually see through the subject's eyes, so it's not as good as being there yourself, but you still get a good idea of what's going on. Subjects resist this control, and any subject forced to take actions against its nature receives a new saving throw with a +2 bonus. Obviously self-destructive orders are not carried out. Once control is established, the range at which it can be exercised is unlimited, as long as you and the subject are on the same plane. You need not see the subject to control it. If you don't spend at least 1 round concentrating on the spell each day, the subject receives a new saving throw to throw off the domination.

Protection from evil or a similar spell can prevent you from exercising control or using the telepathic link while the subject is so warded, but such an effect does not automatically dispel it.

**Fey Form IV**

**Witch 9**

**School** transmutation (polymorph)  
**Casting Time** 1 action  
**Components** V, S, M (a piece of the creature whose form you plan to assume)  
**Range** personal  
**Target** you  
**Duration** 1 minute/level (D)

This spell functions as *fey form III* except it doesn't limit your base speed and also allows you to use more abilities. If the form you assume has any of the following abilities, you gain those abilities: burrow speed 60 feet, climb speed 90 feet, fly speed 120 feet (good maneuverability), swim speed 120 feet, all-around vision, blindsense 60 feet, blindsight 30 feet, darkvision 90 feet, low-light vision, scent, see in darkness, tremorsense 60 feet, abduct, animated hair, beguiling aura, bleed, blood rage, boot stomp, burn, compression, constrict, crushing leap, DR 5/cold iron, fast healing 5, fear aura, frightful presence, grab, heavy weapons, hide in plain sight, icewalking, kneecapper, luminous, nasal spray, no shadow, oversized weapons, poison, putrid vomit, rend, rock throwing (120 feet, 2d10 damage), sound mimicry, supernatural speed, tear shadow, trackless step, trample, transparency, tree meld, undersized weapons, vault, and woodland stride. If the creature has immunity or resistance to any energy types, you gain resistance 30 to those energy types. If the creature has immunity to mind-affecting effects or poison, you gain a +8 resistance bonus on saves against those effects. If the creature has spell resistance, you gain spell resistance 6 + your caster level. If the creature has any weaknesses, you gain those weaknesses.

**Fey Form I**

You assume the form of a Small or Medium creature of the fey type. Your base speed changes to match the new form's base speed, with a maximum speed of 60 feet (even if the chosen fey form has a base speed in excess of that speed). If the form you assume has any of the following abilities, you gain those abilities: climb speed 30 feet, fly speed 30 feet (average maneuverability), swim speed 30 feet, darkvision 60 feet, low-light vision, scent, and boot stomp. If the form you assume has the aquatic subtype, you can breathe air and water. If the creature has any weaknesses, you gain those weaknesses. If a listed ability depends on an item (as is the case with boot stomp), this spell transforms the nearest counterpart among your worn gear into that item.

You can more easily cast spells that the creature has as spell-like abilities, although you must still cast them as normal for your class. When you cast a spell that the creature has as a spell-like ability, it requires no verbal or somatic components and can't be countered.

**Small Fey:** If you assume this form, you gain a +2 size bonus to your Dexterity and Constitution scores.

**Medium Fey:** If you assume this form, you gain a +2 size bonus to your Strength and Constitution scores.

**Fey Form II**

This spell functions as *fey form I*, except it also allows you to assume the form of a Tiny or Large creature of the fey type. Your base speed can't increase above 90 feet this way. If the form you assume has any of the following abilities, you gain those abilities: burrow speed 30 feet, climb speed 90 feet, fly speed 60 feet (good maneuverability), swim speed 60 feet, all-around vision, blindsense 30 feet, darkvision 60 feet, low-light vision, scent, see in darkness, abduct, animated hair, bleed, blood rage, boot stomp, burn, compression, constrict, crushing leap, DR 2/cold iron, grab, heavy weapons, icewalking, kneecapper, nasal spray, no shadow, oversized weapons, poison, putrid vomit, rock throwing (50 feet, 1d6 damage), sound mimicry, trackless step, trample, tree meld, undersized weapons, and woodland stride. If the creature has immunity to mind-affecting effects or poison, you gain a +4 resistance bonus on saves against those effects. If the creature has any weaknesses, you gain them.

**Tiny Fey:** If you assume this form, you gain a +6 size bonus to your Dexterity score and take a -2 penalty to your Strength score.

**Foresight**

**Witch 9**

**School** divination / void elemental  
**Casting Time** 1 action  
**Components** V, S, M/DF (a hummingbird's feather)  
**Range** personal or touch  
**Target** see text  
**Duration** 10 min./level  
**Saving Throw** none or Will negates (harmless); **Spell Resistance** no or yes (harmless)

This spell grants you a powerful sixth sense in relation to yourself or another. Once foresight is cast, you receive instantaneous warnings of impending danger or harm to the subject of the spell. You are never surprised or flat-footed. In addition, the spell gives you a general idea of what action you might take to best protect yourself and gives you a +2 insight bonus to AC and on Reflex saves. This insight bonus is lost whenever you would lose a Dexterity bonus to AC. When another creature is the subject of the spell, you receive warnings about that creature. You must communicate what you learn to the other creature for the warning to be useful, and the creature can be caught unprepared in the absence of such a warning. Shouting a warning, yanking a person back, and even telepathically communicating (via an appropriate spell) can all be accomplished before some danger befalls the subject, provided you act on the warning without delay. The subject, however, does not gain the insight bonus to AC and Reflex saves.

**Mind Blank, Communal**

**Witch 9**

**School** abjuration / void elemental  
**Casting Time** 1 action  
**Components** V, S  
**Range** close (25 + 5 ft./2 levels)  
**Target** creatures touched  
**Duration** 24 hours split among the recipients  
**Saving Throw** Will negates (harmless); **Spell Resistance** yes (harmless)

This spell functions like *mind blank*, except you divide the duration in 1-hour increments among the creatures touched.

**Mind Blank**

The subject is protected from all devices and spells that gather information about the target through divination magic (such as *detect evil*, *locate creature*, *scry*, and *see invisible*). This spell also grants a +8 resistance bonus on saving throws against all mind-affecting spells and effects. *Mind blank* even foils *limited wish*, *miracle*, and *wish* spells when they are used in such a way as to gain information about the target. In the case of scrying that scans an area the creature is in, such as *arcane eye*, the spell works but the creature simply isn't detected. Scrying attempts that are targeted specifically at the subject do not work at all.

**Witch 9**

**School** transmutation [cold, darkness]

**Casting Time** 1 action

**Components** V, S

**Range** close (25 + 5 ft./2 levels)

**Effect** 30-ft. spread

**Duration** 1 round/level

**Saving Throw** DC 32 Fortitude partial; **Spell Resistance** yes

You plunge an area into the brutal chill of the arctic night. Illumination conditions are dropped by two steps (though only to darkness, not supernatural darkness), and all creatures in the area take 5d6 points of cold damage and 1d6 points of Dexterity damage per round. A successful Fortitude save each round negates the Dexterity damage but not the cold damage. Any creature that doesn't move on its turn becomes encased in a sheath of ice equivalent to wall of ice, is helpless, and cannot breathe. Corpses in the area for longer than 1 round are transmuted into solid ice; reviving the icy corpse requires true resurrection, miracle, or wish. As a move action, you may move the area of effect up to 10 feet in any direction.
